Maxwell's writing challenges readers. However, he also provides clear examples. This balance helps readers grasp his message even if the content is complex. In conclusion, *Hidden in Plain Sight* is a thought-provoking guide to secret knowledge. It encourages awareness in a world filled with distractions. If you want to look beyond the surface, this book is a great place to start. On the other side, Druids used to make their magic wands out of the wood of the holy tree, and apparently, we learned this back from a very famous researcher, Jordan Maxwell. That's why we have something called magic. And obviously, they named Holly Wood on behalf of those ancient times. Jordan tells me, "You can get in trouble in Hollywood for knowing things you're not supposed to know, and especially if you talk about it in public." Jordan came to Los Angeles in Hollywood 60 years ago. Believe me, that's 60 years he learned a lot; he met everybody he knew, all kinds of movie stars, of impressive and important people in the entertainment world, especially musicians like Ice Cube, Michael Jackson, George Lucas, etc. In fact, The Wu Tang Gang wrote a song called *The End*, featuring Jordan. Jordan brought to the public domain the term coined as *The Illuminati*. When the matrix of power came out, there was a movie released that was shaking the core of everybody. There was also a book that accompanied this, and others that would follow. During those times was when Jordan became friends with Shirley MacLaine. One of the most important symbols in the druid system was a magic wand like Merlin, the magician, with a magic wand, and also the orchestra leaders and conductors always have a magic wand, and you'd better play to the tune of the master. He directs you and play, and he directs you to stop with the magic wand, so you're dancing to his music. Magic wands were always made out of the wood of a holy tree. It's made out of a holy wood, Hollywood, thus is the druid establishment, and the symbols, the words, the stories are designed.
