Olivier Roy:

Radicalisation Gilbert McLaughlin, 2023-12-13 Radicalisation is a conceptual investigation within Western liberal democratic societies that follows an analytical framework linking expertise theory to discourse analysis of publications from the academic governmental and non governmental spheres as well as a dozen interviews with experts in the field The reader will come to understand the socio political configurations that led to the emergence of radicalisation as an object of study The book also identifies the historical tensions regarding models definitions and operationalisation of the concept of radicalisation in social sciences research Finally a new model explaining how the term radicalisation became the central conceptual framework of a new field of expertise will be proposed The book is situated within the fields of security studies crime prevention and sociology of expertise The book is innovative in its distinct focus on the term radicalisation and the expertise thereof With its diachronic and synthetical approach the book also serves as an entry point for all researchers and practitioners seeking an introduction to the subject of radicalisation and violent extremism The book addresses the debates among academics public experts and policymakers into the origin dissemination and maintenance of the field of expertise Thus the aim is not so much to uncover the true meaning of the term as to understand how it has been socially constructed this book will be of great interest to students and scholars of criminology security studies and sociology

Holy Ignorance

Roy Olivier, 2014-01-16 Olivier Roy world renowned authority on Islam and politics finds in the modern disconnection between faith communities and socio cultural identities a fertile space for fundamentalism to grow Instead of freeing the world from religion secularization has encouraged a kind of holy ignorance to take root an anti intellectualism that promises immediate emotional access to the sacred and positions itself in direct opposition to contemporary pagan culture The secularization of society was supposed to free people from religion yet individuals are converting en masse to fundamentalist faiths such as Protestant evangelicalism Islamic Salafism and Haredi Judaism These religions either reconnect adherents to their culture through casual referents like halal fast food or maintain their momentum through purification rituals such as speaking in tongues a practice that allows believers to utter a language that is entirely their own Instead of a return to traditional religious worship we are now witnessing the individualisation of faith and the disassociation of faith communities from ethnic and national identities Roy explores the options now available to powers that hope to integrate or control these groups and whether marginalisation or homogenisation will further divide believers from their culture

Nations Paul Scheffer, 2011-06-20 This book is a path breaking reflection of the challenges posed to Western societies by the large scale migration of the postwar period *Understanding Political Islam* François Burgat, 2019-12-20 Understanding Political Islam retraces the human and intellectual development that led Fran ois Burgat to a very firm conviction that the roots of the tensions that afflict the Western world s relationship with the Muslim world are political rather than ideological In his compelling account of the interactions between personal life history and professional research trajectories Burgat

examines how the rise of political Islam has been expressed first in the Arab world then in its interactions with European and Western societies An essential continuation of his work on Islamism Burgat s unique field research and political trespassing marks an overdue challenge to the academic mainstream [Pluralizing Humanism](#) Slavica Jakelić,2025-02-28 Humanism is appealed to today whenever we want to tackle the conditions of dehumanization in the contemporary world But for humanism to be viable in the twenty first century this book argues it needs to be pluralized Employing theoretical historical and sociological arguments this book moves beyond the discourse of critique It engages theories of religion and secularism as well as postmodern postcolonial and decolonial critiques of Western humanist projects to uncover the ideas and practices of religious and secular humanisms when they challenge dehumanization in the pursuit of conditions of flourishing for all Through studies of the Solidarity movement in Poland and the anti apartheid movement in South Africa the book demonstrates the centrality of humanist traditions to the emergence of religious secular solidarities that transformed the political landscapes of the world By highlighting the instances in which humanisms functioned as checks on each other s absolutist claims the book contends that humanisms supply a constructive path for addressing the challenges of our time a time of radically divided societies and intolerant even violent forms of nationalism A challenge to the critiques of humanism that seek to identify it solely as the legacy of the West as anti religious discourse or relegate it to the domain of power constellations [Pluralizing Humanism](#) highlights the rich plurality of humanist discourses and the need for their mutual engagements It points to humanist ideals as constitutive of politics that can guide our human power because they are irreducible to it As such this book will appeal to social scientists social theorists religious studies scholars and ethicists with interests in religion secularism social movements and humanist thought and practice **Spear to the West** Stephen Chan,2019-06-01 With the seeming defeat of ISIS has jihadism disappeared from world politics In this startling new book Stephen Chan uncovers the ideological foundations that allow ISIS and other jihadi groups to survive as they propagate terror by sophisticated means online and continue thrusting their spear at the West Far from presenting simple minded black clad fighters Chan describes an elaborate process of online recruitment which is in its own terrible way meaningful and thoughtful He examines the foundations of this thought and the step by step methods of jihadi indoctrination exposing the lack of IT knowledge among Western world leaders and urging the moderate Islamic community in the West to challenge jihadi ideology with a courageous non violent ideology of its own Without a counter ideology Chan argues alienated Muslim youth are drawn not only to glamorized dreams of violence but also to the pull of a totalizing system of politics and theology **Spear to the West** picks apart the fallacy of thoughtless jihadi carnage arguing that dangerous and gruesome as it might be there is more thought behind this phenomenon of destruction than meets the eye **The Failure of Political Islam** Olivier Roy,1994 For many Westerners ours seems to be the era of the Islamic threat with radical Muslims everywhere on the rise and on the march remaking societies and altering the landscape of contemporary politics In a powerful corrective to this view

the French political philosopher Olivier Roy presents an entirely different verdict political Islam is a failure Even if Islamic fundamentalists take power in countries like Algeria they will be unable to reshape economics and politics and in the name of Islamic universalism will express no more than nationalism or an even narrower agenda Despite all the rhetoric about an Islamic way an Islamic economy and an Islamic state the realities of the Muslim world remain essentially unchanged
