This revision book for the clinical skills assessment (CSA) portion of the Membership of the Royal College of General Practitioners (MRCGP) exams includes a range of scenarios representative of those candidates will encounter, each created with direct input from an MRCGP examiner. The book enables candidates to role-play the scenarios with colleagues, providing notes for both candidates and actors. The book's structure follows the scheme of the exam, covering information gathering, clinical management, and interpersonal skills. It includes sections focusing specifically on the history, examination, and management plan for scenarios, while table summaries help candidates to focus on key areas. Each chapter concludes with a tutorial of relevant information and a suggested reading list. What the authors have developed in this text is a guide to excellence in this assessment method: how it runs, how it is structured, how it is marked. Anyone anxious about performance and success in the CSA, and all of us, will find a practical way to prepare and pass.

Foreword by John Spicer.

**Essential NMRCP CSA Preparation and Practice Cases** Rhona Knight, 2016-07-06. The Clinical Skills Assessment (CSA) of the new Membership of the Royal College of General Practitioners (MRCGP) examinations can be a daunting test. Candidates face assessment on an unknown situation by a patient and assessor; however, help is at hand. This book has been written by a CSA examiner in concert with GP training programme members to help candidates approach the exam feeling prepared, calm, and in control. It includes advice on preparation, consultation skills, how the assessment is marked, and 12 practice CSA cases along with advice on how candidates can create cases with which to practise and assess each other. Clear, practical, and based on sound knowledge and proven techniques, this book will be essential reading for NMRCP CSA candidates.

Rhona is a passionate and compassionate educator with a strong sense of natural justice and also a long-standing MRCGP examiner. She has developed an approach to understanding and preparing for the Clinical Skills Assessment (CSA) that is already tried, tested, and proven. An approach that will enhance the candidate's ability as a GP at the same time as preparing them for the CSA.
