*Whole Novels for the Whole Class* Ariel Sacks, 2013-10-03 Work with students at all levels to help them read novels *Whole Novels* is a practical field tested guide to implementing a student centered literature program that promotes critical thinking and literary understanding through the study of novels with middle school students Rather than using novels simply to teach basic literacy skills and comprehension strategies *Whole Novels* approaches literature as art The book is fully aligned with the Common Core ELA Standards and offers tips for implementing whole novels in various contexts including suggestions for teachers interested in trying out small steps in their classrooms first Includes a powerful method for teaching literature writing and critical thinking to middle school students Shows how to use the *Whole Novels* approach in conjunction with other programs Includes video clips of the author using the techniques in her own classroom This resource will help teachers work with students of varying abilities in reading whole novels

**Jacaranda Core Science Stage 5 New South Wales Australian Curriculum, 3e learnON and Print** Pascale Warnant, 2025-10-20 *STEAM Meets Story* Gloria D. Campbell-Whatley, Diane Rodríguez, Jugnu Agrawal, 2021-06-11

This innovative STEAM guide will help general and special education teachers to increase effective instruction with adolescents grades 5 10 The authors show teachers how to link STEM concepts with popular fiction and film selections as a catalyst to launch student interactions discussions projects and investigations This approach will promote problem solving and reasoning skills by initiating the scientific process rather than simply presenting established facts The book includes a wealth of lesson plans that connect abstract STEM ideas to realistic experiences that students encounter Sample lessons call on students to produce drawings and models that move STEM to STEAM Grounded in popular film and some of the most read young adult books the text includes teaching strategies found to be effective with traditionally underserved students and those with disabilities Book Features Standards based STEM lessons interrelated and interwoven with writing reading speaking and other skills Practical ideas and hands on activities for engaging adolescents in both traditional and virtual environments Guidance for working with diverse populations such as students with different abilities culturally and linguistically diverse students translingual students and transnational students Templates handouts and lessons linked to *Star Wars* *The Giver* *The Immortal Life of Henrietta Lacks* *Harry Potter* *To Kill a Mockingbird* *Star Trek* *The Matrix* *Holes* and more

*Haunting Biology* Emma Kowal, 2023-10-13 In *Haunting Biology* Emma Kowal recounts the troubled history of Western biological studies of Indigenous Australians and asks how we now might see contemporary genomics especially that conducted by Aboriginal and Torres Strait Islander scientists Kowal illustrates how the material persistence of samples over decades and centuries folds together the fates of different scientific methodologies Blood bones hair comparative anatomy human biology physiology and anthropological genetics all haunt each other across time and space together with the many racial theories they produced and sustained The stories Kowal tells feature a variety of ghostly presences a dead anatomist a fetishized piece of hair hidden away in a war trunk and an elusive

white Indigenous person By linking this history to contemporary genomics and twenty first century Indigeneity Kowal outlines the fraught complexities perils and potentials of studying Indigenous biological difference in the twenty first century

**Disrupting Secondary STEM Education** Margery Gardner,2024-12-19 This volume brings into focus the pivotal educational years during adolescence when many learners are exposed to implicit and explicit messages that STEM is not a viable educational pathway for them Challenging this notion Disrupting Secondary STEM Education brings together a collective of critical educators who share what disruptive STEM teaching looks and feels like from an insider perspective as well as the ways they purposefully create curriculum to subvert existing structures that can confine learning Through disruptive STEM teaching a joy for learning is kindled as well as a sense of empowered criticality in students that can support their development as global citizens facing complex futures The collection shares stories across a spectrum of educators from those beginning their teaching journey to those who ve stood up against narrow curriculum and standardized testing for years in the capacity of both P 12 teachers and teacher educators The voices of these educators illustrate how the work of disruptive STEM teaching can be actualized within cohorts of future teachers achieved through early engagement with critical theories and generative field experiences that support and affirm a wide array of identities This book provides multiple theoretical and practical access points for the reader to understand the work of disruptive STEM teaching and offers a way forward for those interested in developing more critical curriculum in their own classrooms As such it will be important reading for postgraduate students and researchers in Social Justice Education and STEM Education as well as for in service educators
