Sono inoltre presenti sulla scheda componenti che possono raggiungere durante il normale esercizio delle temperature elevate e pericolose per l'uomo in caso di contatto diretto.

INTRODUCTION

This Technical Note provides general installation and operating information exclusively concerning the Marelli Motor regulator code specified in the document, mounted on the Marelli Motor synchronous generators specified in the last paragraph "APPLICATION".

Before the generator start and any type of regulation operation, read carefully and completely this Technical Note.

IMPORTANT NOTE: It is not the intention of this document to cover all the installation or connection diagrams variations, nor does this manual provide information for every possible contingency. The connection drawings provided with the generator, the generator user manual and all the technical information provided by Marelli Motor Technical Personnel can integrate this Note.

In particular, the connection drawings into this document are provided only for explanation purposes. They do not cover all the application cases and not substitute the connection drawings usually provided with the generator.

Should further information be required, please contact After Sales Department (see the references at the end of the page).

SAFETY PRECAUTIONS

WARNING: when the regulation device is energized (generator running), a lethal voltage is present at the top panel (connection side) and at all the parts electrically connected to it. Furthermore, there are components into the board that can reach high working temperatures, with high danger for the user in case of direct contact.

Every wiring and/or mechanical installation operation on the regulator must be performed only in generator stop conditions, and only by skilled personnel. Furthermore, pay attention to wait a time interval sufficient for the device cooling-down.

Every regulation setting operation must be performed with generator running in no load conditions, by skilled personnel, using tools suitable to assure the user safety (i.e. isolated screwdriver, protection glasses and gloves).

Marelli Motor is under no liability for any damages which may occur to the AVR, the plant or the persons, or for lost earnings, or financial loss, or system stoppages, due to missed out Technical Note reading (both safety and installation/operating instructions).
