Eugene Garfield 1925-2017 Antonella De Robbio, Raman Nair R, 2017-04-01 Garfield s greatest contribution to science was the Science Citation Index SCI It is a system that used to chart connections between pieces of scientific literature It is not only an intellectual achievement but also an information engineering marvel covering millions of records from numerous subject fields and communicated over worldwide networks These databases became the foundation of the online research tool called the Web of Knowledge And it has now become accessible electronically via the Web of Science Garfield enabled information retrieval to scale up basically creating the entire information science field as we know it today His life and work will surely inspire generations of scientists in advancing the frontiers of human knowledge This is Informatics Studies 4 2 which is Eugene Garfield Memorial Issue It gives a bird s eye view of Garfield s life and work and consist of an 80 page interview of Garfield published in print for the first time presenting his views on impact of information systems in scientific research NGOs the future of Open Access current research and Big science which can guide academic administrators science policy makers in governments and scientists

Towards a Psychophysiological Approach in Physical Activity, Exercise, and Sports Pedro Forte, Daniel Leite Portella, Diogo Monteiro, José Eduardo Teixeira, 2023-10-30 In recent years there has been an increase in interest in mental health disorders as a result of mediatic coverage of Olympic athletes mental health struggles and also due to the COVID 19 pandemic lockdowns These phenomena helped to further exacerbate a problem already extensively present in sport and society Therefore applying a psychophysiological approach to physical activity exercise and sports research has become very popular Indeed mental fatigue and mental disorders are not only psychological in origin but also require an explanation from a psychophysiological perspective due to the effective

interconnection between the psychological and physiological dimensions Psychological variables can also influence performance and the psychophysiological system has a strong effect on the control of physical capacities Moreover pacing behaviour decision making self regulation and effort perception can also explain the role of the brain in physical activity and exercise management Thus the aim of this Research Topic is to share the impact of a psychophysiological approach in physical activity exercise and sports

Surviving and Thriving in Postgraduate Research Ray Cooksey, Gael McDonald, 2019-06-27 This handbook provides an in depth exploration of the entire journey of postgraduate research in the social and behavioural sciences from enrolment to its culmination in the form of a thesis dissertation or portfolio and beyond It is written in an accessible and example rich style offering practical and concrete advice in virtually all areas It also includes references to additional resources and websites and each chapter features key recommendations for improving the postgraduate research experience The book addresses not only research related aspects e g supervisors selecting your guiding assumptions contextualising framing and configuring research reviewing literature sampling writing proposals ethics and academic integrity selecting a data gathering strategy surviving your thesis dissertation portfolio examination and publishing but also questions concerning how to integrate manage and balance the research journey in the context of the postgraduate student s broader life world e g skill development and supervisor relations effective time and project management a healthy work life balance maintaining motivation and dealing with criticism The book adopts an explicitly pluralist perspective on postgraduate research moving beyond mixed methods thinking and offers concrete examples from postgraduate students real world experiences
