Building Energy Efficiency, Volume 1 Patrick Salagnac, Jean-Luc Faure, 2025-12-16 The aim of this book is to present the fundamental principles of energy efficiency in construction. It is aimed at professionals as well as masters and engineering school students working in the field of building energy. Volume 1 covers the building context and issues the building envelope and how to improve it using innovative materials and construction techniques, ventilation and lighting. Volume 2 is devoted to heating, air conditioning, domestic hot water production and centralized building management. The aim is to present more sustainable energy efficient solutions. Through these different aspects, the ambition of this book is to give the reader the tools and best practices to design, renovate or manage buildings and thus ensure the comfort of occupants while reducing the impact on the environment.

Normes endogènes et plurilinguisme Claudine Bavoux, Lambert-Félix Prudent, Sylvie Wharton, 2008 Les linguistes spécialistes de l'espace francophone usent depuis plus d'une vingtaine d'années du concept de normes endogènes. Elles sont nées initialement à partir de situations africaines. La question est de savoir si ce concept peut être étendu à d'autres situations de plurilinguisme et quelles conditions. Elle est posée depuis les aires francophones que sont les DOM dans une démarche de confrontation avec d'autres situations de francophonie: Wallonie romane, Côte d'Ivoire, Louisiane, Maghreb. L'observation attentive de ces situations de contact révèle une permanente activité de brouillage et de négociation des lignes frontalières. Partant de là, les auteurs de cet ouvrage avancent que l'heure est davantage aux appartenances multiples qu'une allégeance à une norme unique, mais aussi que la langue doit s'appréhender en termes de projet négociable et non plus d'objet pré-construit, c'est-à-dire d'essence. La question des normes endogènes ou plus exactement du processus de leur production s'actualise alors non pas à partir d'une langue artificiellement coupée de son milieu sociologique, mais à partir de ce qui se parle, un vernaculaire marqué par le plurilinguisme. Même si les valeurs assignées aux différentes formes linguistiques demeurent quand elles sont inscrites dans une société, elles ne sont que socialement et historiquement marquées.

Manual of Romance Languages in Africa Ursula Reutner, 2023-12-18 With more than two thousand languages spread over its territory, multilingualism is a common reality in Africa. The main official languages of most African countries are Indo-European. In many instances, Romance languages were primarily brought to Africa in the era of colonization. The areas discussed in this volume are thirty-five states that were once ruled by Belgium, France, Italy, Portugal or Spain, and the African regions still belonging to three of them. Twenty-six states are presented in relation to French, four to Italian, six to Portuguese and two to Spanish. They are considered in separate chapters according to their sociolinguistic situation, linguistic history, external language policy, linguistic characteristics and internal language policy. The result is a comprehensive overview of the Romance languages in modern-day Africa. It follows a coherent structure, offers linguistic and sociolinguistic information and illustrates language contact situations, power relations as well as the cross-fertilization and mutual enrichment emerging from the interplay of languages and cultures in Africa.
