

Development studies

Development study is a discipline that gives particular skills on solving various problems and assembles people of different backgrounds.

Objectives

1. To make students understand and explain the concept and theories of social development in developing countries and make you are the factors that influence social development.
2. To understand the current issues of the world, meaning the contemporary issues that are happening at the local level, continental level and global level.
3. To make us able to discuss, analyze and participate in the issues of social development, meaning be part of that discussion as well.

Concept and theories of social development

Development: this is the concern of everyone because the process of development affects everyone.

People define development different because of their backgrounds, example a lawyer will define development in a different way then a doctor will define development.

There are two group when defining development.

-there are those who say that development is an economic growth.

Some people say that development includes totality and comprehensive process that includes all issues and sectors of the economy.

Development: this terms is defined differently by many people from different professions example a lawyer would define different from a doctor, but in actual sense it means moving from a lower stage to a better stage.

Marxists theory of social development: he says that this is the theory that is based on social change, by changing the inequalities and injustices that are created by the capitalists.
