Resources in Education, 1982 BCS Educational Yearbook British Computer Society, 1971

ICT, Integrating Computers in Teaching David Barr, 2004 This book examines the role of computers in language learning and teaching in higher education In particular it considers the pedagogical and practical value of designing a language learning environment around computer technology Whereas considerable research has already been undertaken in analysing the value of individual computer tools and packages such as e mail the study gives a broad appraisal of their individual and collective value without being too exhaustive Using quantitative and qualitative data based on research visits to three universities Ulster Cambridge and Toronto this study provides examples of effective practice in the area of the exploitation of Information and Communication Technology for language learning and teaching It draws on the experience of these three institutions as well as the findings of current literature in this area in order to establish a set of essential criteria that institutions need to meet when creating a computer based environment Although these criteria are based on experience with language learning environments they are essentially generic in nature and may be applied to other computer based learning environments

Microcomputers in Education Katherine Clay, 1982 Designed to put educators in touch with the literature people and resources that will keep them informed of the current and future state of the art in computer education this guide provides citations from 1976 through March 1982 compiled from computer searches of ERIC Magazine Index and Newspaper Index and from manual searches of Education Index Microcomputer Index and the library and information files of the San Mateo Educational Resources Center Each section begins with a brief introduction Within each section citations are arranged by document format journal and newspaper articles microfiche documents and books and reports A list of acronyms is included Individual chapters focus on the following topics futures trends computer literacy philosophy classroom applications management applications selection evaluation criteria teacher administrator education research studies home computers and references resources An appendix lists additional information sources and author and subject indexes are provided LMM
