

Wave Recognition

A pair of pattern-recognition cards is used with each child. The sequence combinations they pass through includes and practice are observed. Individualized feedback is given. The child is given the sequence-recognition cards. Make a similar sequence for the child to practice the skill. Use the cards with the pattern. They are designed to be used with the child.

The grid consists of 10 rows of pattern-recognition cards. Each row contains two cards. The cards show various wave patterns on a grid. A vertical line separates the two cards in each row. The patterns include simple waves, waves with a peak, and waves with a dip. A small box on the right side of the grid contains the text "The wave is the same as the one on the left." and a small illustration of a wave.
