Alfred Bester's The Stars My Destination D. Harlan Wilson, 2022-04-25 In this comprehensive study of *The Stars My Destination* D Harlan Wilson makes a case for the continued significance of Alfred Bester's SF masterwork exploring its distinctive style influences intertextuality affect and innovation as well as its extensive metafictional properties In *Stars* Bester established himself as a son of the pulp SF and high modernist writers that preceded him and a forefather to the New Wave and cyberpunk movements that followed his lead Wilson's study depicts Bester as an SF insider as much as an outlier writing in the spirit of the genre but breaking with the fixation on hard science in favor of psychological interiority literary experimentation and adult themes The book combines close readings of the novel with broader concerns about contemporary media technoculture and the current state of SF itself In Wilson's view SF is a moribund artform and *Stars* foresaw the inevitable science fictionalization of our benighted world With scholarly lucidity and precision Wilson shows us that *Stars* pointed the way to what we have un become *The Stars My Destination* Alfred Bester, 1970 Gully Foyle was catapulted into the middle of a nerve shattering death struggle between the planets when he sought revenge against those who refused to save him from agonizing death in a space ship [Alfred Bester's the Stars My Destination](#) Alfred Bester, 1979 Marooned in space after an attack on his ship *Nomad* Gulliver Foyle lives to obsessively pursue the crew of a rescue vessel that intended to leave him to die **Alfred Bester's: The Stars: My Destination** Byron Preiss, *Alfred Bester's the Stars My Destination* Alfred Bester, Byron Preiss, 1957 Marooned in space after an attack on his ship *Nomad* Gulliver Foyle lives to obsessively pursue the crew of a rescue vessel that intended to leave him to die [The Complete Alfred Bester's Stars My Destination](#) Alfred Bester, 2012-10 Special hardcover limited edition of the graphic novel adaptation of Alfred Bester's *The Stars My Destination* This production is one of the first sophisticated full color American graphic novels first published in 1979 5 in the Millennium SF Masterworks series a library of the finest science fiction ever written Science fiction has only produced a few works of actual genius and this is one of them Joe Haldeman Bester at the peak of his powers is quite simply unbeatable James Lovegrove Marooned in outer space after an attack on his ship *Nomad* Gulliver Foyle lives to obsessively pursue the crew of a rescue vessel that had intended to leave him to die When it comes to pop culture Alfred Bester 1913 1987 is something of an unsung hero He wrote radio scripts screenplays and comic books in which capacity he created the original Green Lantern Oath But Bester is best known for his science fiction novels and *The Stars My Destination* may be his finest creation With its sly potshotting at corporate skullduggery *The Stars My Destination* seems utterly contemporary and has maintained its status as an underground classic for fifty years Bester fans should also note that iPicturebooks has reprinted *The Demolished Man* which won the very first Hugo Award in 1953 Alfred Bester was among the first important authors of contemporary science fiction His passionate novels of worldly adventure high intellect and tremendous verve *The Stars My Destination* and the Hugo Award winning *The Demolished Man* established Bester as a s f grandmaster a reputation

The Stars My Destination Alfred Bester, 1996 In this pulse quickening novel Alfred Bester imagines a future in which people jaunte a thousand miles with a single thought where the rich barricade themselves in labyrinths and protect themselves with radioactive hit men and where an inarticulate outcast is the most valuable and dangerous man alive *Psience Fiction*

Damien Broderick, 2018-05-12 Science fiction has often been considered the literature of futuristic technology fantastic warfare among the stars or ruinous apocalypses on Earth The last century however saw through John W Campbell the introduction of psience fiction which explores such themes of mental powers as telepathy precognition of the future teleportation etc and symbolic machines that react to such forces The author surveys this long ignored literary shift through a series of influential novels and short stories published between the 1930s and the present This discussion is framed by the sudden surge of interest in parapsychology and its absorption not only into the SF genre but also into the real world through military experiments such as the Star Gate Program
