

Behavior Rating Inventory of Executive Function, Second Edition (BRIEF-2)

Administered by: _____ Completed by: _____

The BRIEF-2 is a rating scale that assesses a child's executive functioning behavior in eight separate areas including: planning, organizing, initiating tasks, inhibiting impulses, emotional control, and flexibility and sustaining working memory. The executive functions are mental processes that direct one's thought, action, and emotion, particularly during active problem solving. T-scores at or above 65 should be considered as having potential clinical significance.

* T-scores between 65 and 69 are considered to be **moderately elevated**

** T-scores 70 and higher are considered **clinically significant**

Clinical Scales	Parent	Teacher	Teacher	Common Characteristics of High Scores
Behavior Regulation Index (BRI)				Captures the child's ability to regulate and monitor behavior effectively. Composed of the Inhibit and Self-Monitor scales.
Inhibit				Ability to not act on an impulse and stop one's behavior at an appropriate time.
Self-Monitor of Regulation Index (SMRI)				Tracking habits and self-monitoring. Represents the child's ability to regulate emotional responses and be calm and in control for changes in environment, people, plans, or demands. Composed of the Shift and Emotional Control scales.
Shift				Ability to move flexibly from one situation or activity to another based on demands.
Emotional Control of Regulation Index (ECRI)				Ability to modulate emotional responses. Reflects the child's ability to control and manage negative processes and to problem solve effectively. Composed of the Inhibit, Working Memory, Plan/Organize, Task-Monitor, and Organization of Materials scales.
Inhibit				Initiation is the ability to begin a task or activity without being prompted to do so. Key aspects of initiation include the ability to independently generate ideas, responses, or problem-solving strategies. Initiation difficulties typically do not reflect non-compliance or distractibility in a specific task.
Working Memory				Working memory is the capacity to hold information in mind in order to complete a task, encode and store information, or generate goals. Working memory is essential for carrying out multistep activities, completing mental manipulations, such

Maanum, 2009-03-26 This is a great resource for general and special education teachers administrators and paraprofessionals looking for answers when working with students with special needs. What a wonderful guide for supporting our day to day work. Heidi Rinke, Special Education Teacher, Wheaton Area Schools, MN. The essential guide for teaching effectively in the inclusive classroom. Through IDEA 2004 students who are eligible to receive services to meet their special needs are guaranteed certain rights and benefits in the general education classroom. The third edition of this user friendly handbook offers easy to implement strategies recommendations and answers to questions that help general education classroom teachers provide the best support for all students. In addition to an all new section that outlines the basics of the Response to Intervention RTI model this resource presents research based intervention ideas to sustain student progress and describes Instructional approaches for the 13 recognized disability categories under which students may be eligible to receive special education services. An easy to follow step by step explanation of the special education process. Ready to use classroom accommodation and modification options to ensure appropriate student access to the general education curriculum. The transition process for students with special needs. Accessible up to date and comprehensive. [The General Educator's Guide to Special Education](#) provides much needed guidance to new and veteran teachers as they meet the diverse needs of their students. [Practitioner's Guide to Empirically Based Measures of School Behavior](#) Mary Lou Kelley, George H. Noell, David Reitman, 2003 This book provides clinicians and researchers with reviews of a compendium of instruments used for assessing children's and adolescents' behavior social or attentional problems in the school setting. Although the primary focus is on the evaluation of problems manifested in the school setting many instruments reviewed are multi informant and are used to evaluate children across settings. All instruments reviewed have psychometric support. The contemporary assessment of children's behavior problems has moved away from exclusive reliance on rating scale interview methods to functional assessment of children in the classroom. As such a chapter on functional assessment which refers to identifying the function of the behavior with regard to reinforcement contingencies is included in the book. Also included is a chapter on curriculum based assessment methods for evaluating academic skill deficits relative to the child's curriculum. This chapter is included given the increased risk of academic weaknesses for children with behavior or attentional problems. [Encyclopedia of Counseling](#) Frederick T.
