Congress. House. Committee on Oversight and Government Reform. Subcommittee on Government Management, Organization, and Procurement, 2010 Cloud Computing United States. Congress. House. Committee on the Judiciary. Subcommittee on Intellectual Property, Competition, and the Internet, 2012 **Cloud Computing** United States Government Accountability Office, 2017-10-05 Cloud computing is a relatively new process for acquiring and delivering computing services via information technology IT networks Specifically it is a means for enabling on demand access to shared and scalable pools of computing resources with the goal of minimizing management effort and service provider interaction To encourage federal agencies to pursue the potential efficiencies associated with cloud computing the Office of

Management and Budget OMB issued a Cloud First policy in 2011 that required agency Chief Information Officers to implement a cloud based service whenever there was a secure reliable and cost effective option GAO was asked to assess agencies progress in implementing cloud services GAO s objectives included assessing selected agencies progress in using such services and determining the extent to which the agencies have experienced cost savings GAO selected for review the seven agencies that it reported on in 2012 in order to compare their progress since then in implementing cloud services the agencies were selected using the size of their IT budgets and experience in using cloud services GAO also analyzed agency cost savings and related documentation and interviewed agency and OMB officials

Cloud Computing, Agencies Need to Incorporate Key Practices to Ensure Effective Performance U.s. Government Accountability Office, 2017-07-25

Cloud computing is a means for delivering computing services via IT networks When executed effectively cloud based services can allow agencies to pay for only the IT services used thus paying less for more services An important element of acquiring cloud services is a service level agreement that specifies among other things what services a cloud provider is to perform and at what level GAO was asked to examine federal agencies use of SLAs GAO s objectives were to 1 identify key practices in cloud computing SLAs and 2 determine the extent to which federal agencies have incorporated such practices into their SLAs GAO analyzed research studies and guidance developed by federal and private entities to develop a list of key practices to be included in SLAs GAO validated its list with the entities including OMB and analyzed 21 cloud service contracts and related documentation of five agencies with the largest fiscal year 2015 IT budgets against the key practices to identify any variances their causes and impacts

Cloud Computing Additional Opportunities and Savings Need to Be Pursued United States Government Accountability, 2015-06-26

Over the last 15 years the federal government s increasing demand for IT has led to a dramatic rise in operational costs to develop implement and maintain systems and services Annually the federal government spends more than 80 billion on IT While the use of IT has the potential to greatly improve service for federal employees and American taxpayers it has also led to federal agencies reliance on custom IT systems that can and have become risky costly and unproductive mistakes

Federal Cloud Computing Strategy The White The White House,2011-02-08 The Federal Government s current Information Technology IT environment is characterized by low asset utilization a fragmented demand for resources duplicative systems environments which are difficult to manage and long procurement lead times These inefficiencies negatively impact the Federal Government s ability to serve the American public Cloud computing has the potential to play a major part in addressing these inefficiencies and improving government service delivery The cloud computing model can significantly help agencies grappling with the need to provide highly reliable innovative services quickly despite resource constraints Why buy a book you can download for free We print this book so you don t have to First you gotta find a good clean legible copy and make sure it s the latest version not always easy Some documents found on the web are missing some pages or the image quality is so poor they are difficult to read We look over each document carefully and replace poor quality images by going back to the original source document We proof each document to make sure it s all there including all changes If you find a good copy you could print it using a network printer you share with 100 other people typically its either out of paper or toner If it s just a 10 page document no problem but if it s 250 pages you will need to punch 3 holes in all those pages and put it in a 3 ring binder Takes at least an hour It s much more cost effective to just order the latest version from Amazon com This book is published by 4th Watch Books and includes copyright material We publish compact tightly bound full size books 8 by 11 inches with large text and glossy covers 4th Watch Books is a Service Disabled Veteran Owned Small Business SDVOSB If you like the service we provide please leave positive review on Amazon com Without positive feedback from the community we may discontinue the service and y all can go back to printing these books manually yourselves For more titles published by 4th Watch Books please visit cybahwebplus.net
