Kurose,Keith W. Ross,2010 Building on the successful top down approach of previous editions this edition continues with an early emphasis on application layer paradigms and application programming interfaces encouraging a hands on experience with protocols and networking concepts

Data and Computer Communications William Stallings,2007 Data and Computer Communications Eighth Edition offers a clear comprehensive and unified view of the entire fields of data communications networking and protocols William Stallings organizes this massive subject into small comprehensible elements building a complete survey of the state of the art one piece at a time Stallings has substantially revised this international best seller to reflect today s latest innovations from WiFi and 10 Gbps Ethernet to advanced congestion control and IP performance metrics

BOOK JACKET **Computer Publishers & Publications** ,1985 Books in Print Supplement ,2002 *Subject Guide to Books in Print* ,1997 **Computer Networking** James F. Kurose,Keith W. Ross,2001 By starting at the application layer and working down to the protocol stack Computer Networking A Top Down Approach Featuring the Internet provides a motivational treatment of important concepts for networking students Based on the rationale that once a student understands the applications of networks they can understand the network services needed to support these applications this book takes a top down approach where students are first exposed to a concrete application and then drawn into some of the deeper issues of networking Computer Networking A Top Down Approach Featuring the Internet focuses on the Internet as opposed to addressing it as just one of many computer network technologies Students are enormously curious about what is under the hood of the Internet creating an extremely motivational vehicle for teaching fundamental computer networking concepts This text features a comprehensive companion website which includes the entire text online It allows for direct access to some of the best Internet sites relating to computer networks and Internet protocols The website has many interactive features including direct access to the Traceroute program direct access to search engines for Internet Drafts Java applets that animate difficult concepts and direct streaming audio Finally the website makes it possible to update the material to keep up to date with this rapidly changing field
