Philosophy asks the big questions of life: What is it to be a fully developed human being? Am I in control of my destiny? What kind of world are we living in—for example, do the gods or a God exist? How do we know these things—should we believe based on tradition, feelings, faith, evidence? And what difference does it make—what is the best kind of life to live? We will grapple with fundamental philosophical issues and discuss the views of major thinkers in the Western intellectual tradition.

infinite weighted p norm sparse iterative doa estimation via - Feb 10 2023

web sep 14 2023 recently many direction of arrival doa estimation techniques based on sparse representation have been proposed however these techniques often suffer from performance degradation issues in the presence of impulsive noise this paper aims to overcome this challenge in conventional sparse based techniques on an acoustic vector
