Jung the great Swiss psychologist who died in 1961 in his eighty sixth year was a profound thinker of extraordinary creativity In the course of his medical practice he reflected deeply on human nature and human problems and his prolific writings bear witness to his great wisdom and insight For this completely revised edition selections from publications of the years 1945 1961 the last fruitful years of Jung s life have been added and the book has been reset in a new compact format The selections are arranged thematically under four main headings The Nature and Activity of the Psyche Man in His Relation to Others The World of Values and On Ultimate Things Jung s reflections frequently have a penetrating relevance to today s and tomorrow s problems On prejudice Our unwillingness to see our own faults and the projection of them is the beginning of most quarrels and is the strongest guarantee that injustice animosity and persecution are not ready to die out On sex We are not yet far enough advanced to distinguish between moral and immoral behavior in the realm of free sexual activity On religion No one can know what the ultimate things are We must therefore take them as we experience them And if such experience helps to make life healthier more beautiful more complete and more satisfactory to yourself and to those you love you may safely say This was the grace of God

C.G. Jung Speaking C. G. Jung,1987-02-21 A collection of journalistic interviews which span

Jung's lifetime This book captures his personality and spirit in more than 50 accounts of talks and meetings with him They range from transcripts of interviews for radio television and film to memoirs written by notable personalities C. G. Jung Speaking Carl Gustav Jung, William McGuire, Richard Francis Carrington Hull, 1980 **Spiritualism and the Foundations of C. G. Jung's Psychology** F. X. Charet, 2015-04-17 Charet uncovers some of the reasons why Jung's psychology finds itself living between science and religion He demonstrates that Jung's early life was influenced by the experiences beliefs and ideas that characterized Spiritualism and that arose out of the entangled relationship that existed between science and religion in the late nineteenth century Spiritualism following its inception in 1848 became a movement that claimed to be a scientific religion and whose controlling belief was that the human personality survived death and could be reached through a medium in trance The author shows that Jung's early experiences and preoccupation with Spiritualism influenced his later ideas of the autonomy personification and quasi metaphysical nature of the archetype the central concept and one of the foundations upon which he built his psychology An Illustrated Biography of C.G. Jung Gerhard Wehr, 1989

Contemporary Influences of C. G. Jung's Thought Andrew Kuzmicki, Ilona Błocian, 2018-11-26 The book is a volume of the collected works of sixteen different authors They reflect the contemporary meaning of C G Jung's theory on many fields of scientific activity and in a different cultural context Japanese South American and North American as well as European English Italian and Polish The authors consider a specific milieu of Jung's theory and his influence or possible dialogue with contemporary ideas and scientific activity A major task of the book will be to outline the contemporary direct or indirect usefulness and applicability of Jung's ideas at the beginning of the twenty first century while simultaneously making a critical review of this theory On Theology and Psychology C. G. Jung, Adolf Keller, 2020-07-28 Jung's correspondence with one of the twentieth century's leading theologians and ecumenists On Theology and Psychology brings together C G Jung's correspondence with Adolf Keller a celebrated Protestant theologian who was one of the pioneers of the modern ecumenical movement and one of the first religious leaders to become interested in analytical psychology Their relationship spanned half a century and for many years Keller was the only major religious leader to align himself with Jung and his ideas Both men shared a lifelong engagement with questions of faith and each grappled with God in his own distinctive way Presented here in English for the first time are letters that provide a rare look at Jung in dialogue with a theologian Spanning some fifty years these letters reveal an extended intellectual and spiritual discourse between two very different men as they exchange views on the nature of the divine the compatibility of Jungian psychology and Christianity the interpretation of the Bible and figures such as Jesus and Job and the phenomenon of National Socialism Although Keller was powerfully attracted to Jung's ideas his correspondence with the famed psychiatrist demonstrates that he avoided discipleship Both men struggled with essential questions about human existence spirituality and well being and both sought common ground where the concerns of psychologists and theologians converge Featuring an illuminating introduction by Marianne Jehle Wildberger On Theology

and Psychology offers incomparable insights into the development of Jung's views on theology and religion and a unique window into a spiritual and intellectual friendship unlike any other
