**Teacher:** Sophia Kennedy

**Evaluator:** Sierra Saylor

**Grade Level & Section:** Eighth-Washington

**Date of Evaluation:** June 10, 2050

**Room:** Room 305

**Time of Evaluation:** 9:00 AM - 10:00 AM

*Instructions: For this Classroom Observation Summary Report, the evaluator is tasked with conducting a class observation for the entire duration of the class while taking down necessary notes to be used in this summary report as well as attached. The evaluator is hereby tasked with answering the following five (5) questions and providing a reason for his/her answer.*

**Question 1: Is the teacher able to show mastery of the lessons?**

Yes, the teacher was able to show mastery of the lessons she was discussing for that certain class. She was able to handle all the questions of the students and right before she gave an activity to test the student's learning and mastery, she was able to give a comprehensive synthesis of the entire discussion.

**Question 2: Is the teacher able to create an environment that is open and welcoming for the students?**

Yes, the environment of the classroom and the class were very welcoming and open. When the teacher entered the class, she did not immediately start with the discussion, nor did she grill the students about what they learned from the last meeting. Instead, she asked the students how they were and she slowly transitioned to starting the discussion.

Reclaiming Lesson Observation Matt O'Leary, 2016-09-19 Reclaiming Lesson Observation explores the latest practice thinking and research in lesson observation putting teacher learning at its heart Illustrated throughout with practical examples from a range of education settings each chapter contains a rich variety of state of the art evidence based case studies to demonstrate how new approaches to observation can be applied in practice The book is split into four easily accessible parts making the transition to ungraded models of lesson observation recent research studies in lesson observation peer observation coaching and mentoring innovations in observing classroom practice With a carefully chosen team of contributors from senior leaders and managers to classroom practitioners and education researchers this book provides an informed perspective on how to maximise the use of observation and most importantly implement proven successful schemes to improve the quality of teaching in the classroom Reclaiming Lesson Observation is for all practising educators who want to break free from the constraints of performative lesson observation to redefine and reclaim it as a powerful tool for teacher growth on which to build sustainable collaborative communities of teacher learning

**Developing Effective Policies for HIV/AIDS Education practice in Sub Saharan Africa: The Case of Urban Schools of Malawi: A synergy of pupils needs, policies and practice** Paul Makocho, 2014-11 HIV AIDS has been named the Sub Saharan disease In countries that have achieved significant declines in HIV prevalence young people have registered the biggest behavioural changes It means they hold the keys not only to our understanding of the epidemic but more importantly to the efforts required to stem the tide of infections However the majority of young people are ignorant of how to prevent transmission have low compliance to condom use which is in some cases accentuated by misconceptions about HIV AIDS transmission and have insufficient knowledge regarding transmission and avoidance behaviours As such consensus on feasible preventive interventions target young people particularly those in schools It is on this premise that the book unlocks the key pillars in effective HIV AIDS education policies and practices The study has drawn upon the experiences of selected Urban Schools in Malawi to explore the needs of young people in classroom the extent to which the classroom practices respond to the needs and the factors influencing these using questionnaires interviews lesson observations and document analysis Malawi typically represents most Sub Saharan African countries in terms of challenges faced by education systems Given the similar cultural settings of the people of Sub Saharan Africa the findings and recommendations of the study generalises to the education systems of Sub Saharan Africa to a greater extent The book shows the need for open discussion climates on HIV AIDS issues despite a conservative cultural and religious adult world that is not open It has also identified a need for explicit and accurate knowledge on HIV AIDS issues opportunities to acquire behavioural skills for HIV prevention and involvement of external speakers in classroom HIV AIDS education Current classroom practice does not address the pupils needs adequately Factors influencing this can be linked to lack of policies responsive to culture and religion ineffective

and inadequate teaching policy guidelines and lack of a policy prioritising HIV AIDS education The findings suggest that in future effective HIV AIDS Education needs to be informed by the pupils needs To address these needs support from the wider society and related policies coupled with appropriate management and classroom practice will be required The book is therefore an indispensable tool for education systems in Sub Saharan Africa It provides an effective model for the

development of effective HIV AIDS policies and practices in HIV AIDS education curricula **Supportive Supervision**
