Bulletin of the Atomic Scientists ,1973-10 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin s iconic Doomsday Clock stimulates solutions for a safer world *How Migration Really Works* Hein de Haas,2023-12-19 An authoritative guide to global migration that corrects decades of misunderstanding and misguided policy defying orthodoxy on all sides of the debate Yascha Mounk author of *The Identity Trap* As debates on immigration have reached fever pitch so has political and media fearmongering But what are the facts behind the headlines Drawing on three decades of research migration expert Hein de Haas destroys the myths that politicians interest groups and media spread about immigration He reveals Global migration is not at an all time high Climate change will not lead to mass migration Immigration mainly benefits the wealthy not workers Border restrictions have paradoxically produced more migration Ultimately de Haas shows migration not as a problem to be solved nor as a solution to a problem but as it really is This book is an essential guide to one of our most divisive political issues showing how we can move beyond today s deeply polarized debate and make migration work better for everyone

The Laboratory of Progress Joseph Jung,2022-09-16 The Laboratory of Progress Switzerland in the 19th Century tells the improbable story of how a small backward mountainous agricultural country with almost no raw materials became an industrial powerhouse a hub of innovation a touristic mecca and a pioneer in transportation all in the course of a single century That a tiny landlocked country should become a dominant steamship builder for the rest of the world that a country that had never seen a cotton plant should become the world s second largest textile producer that a country with hardly any level terrain should come to boast the world s most highly developed railway network and that a country whose main export was impoverished emigrants should be transformed into one of the world s major financial centres these astonishing developments among many others are explored and explained both through the specific stories of individual innovators and through a prescient analysis of the political economic societal and cultural structures that formed the context in which Switzerland s astonishing transformation took place The book is a compelling read both for professional historians and for general readers with an interest in Switzerland it highlights the roles of transport networks and individual pioneers in industrial and political development
