

# LEAN MANUFACTURING TOOLS AND TECHNIQUES

## Kaizen

1

Revolves around the concept of continuous improvement and requires organizations to focus on activities that further that goal.

## Jidoka

4

Focused on catching and reducing defects as they occur within the production line, jidoka works in conjunction with both human and automation systems.

## Total Quality Management (TQM)

2

Keeps every member of the team accountable for results and drives lean manufacturing principles by tasking everyone within an organization to identify areas ripe for improvement.

## Value Stream Mapping (VSM)

5

Organizations often use what's called "value-stream mapping" as a way to visualize the flow of materials through the production process.

## Kanban

3

It's a production scheduling system that helps organizations promote lean manufacturing by tracking and optimizing production.

## Standardized Work Documents

6

The key to reducing variance in results is to have a set of predefined standards and ensure every team member understands how to achieve those standards.
