It provides a comprehensive and holistic approach helping nurses, therapists and social care professionals to better understand the impact of ageing upon the person and wider society. A unique feature of this text is the focus upon positive ageing and the attempt to dispel and challenge some of the myths, prejudices and negative attitudes that still prevail towards ageing and older people. A key objective of the book is to introduce practitioners to some of the neglected or under-addressed aspects of ageing such as spirituality, sexuality and LGBT. Chapters are written in an engaging and interactive style and where appropriate draw upon case studies and scenarios to maximize engagement, developing competence by informing knowledge, attitudes and skills. The text introduces the practitioner to key dimensions of what it is to be a person, physically, psychologically, socially and spiritually, and how these contribute to the ageing process and can enhance the quality of life of older people. Irrespective of whether one cares for older people in an acute hospital setting or domiciliary home care, this text will be of relevance. The material and content transcend health and social care boundaries, providing valuable contemporary
