Managing Services Mark M. Davis, Janelle N. Heineke, 2003 *Managing Services* is an alternative to the growing service management market in that it is more managerial and procedural, placing less emphasis on quantitative tools and more on strategic concerns. The benefit of this approach is that it views services from the perspective of the general manager rather than the operations specialist. This is important, especially considering most students taking this course aspire to and are preparing for managerial positions. American Book Publishing Record, 2007 *Fundamentals of Operations Management* Mark M. Davis, 2005 Davis *Fundamentals of Operations Management* fits the one-semester course at either the undergrad or MBA market. The 1st Canadian edition addresses the increasing trend toward briefer, less quantitative and more managerial issues that confront managers today and does so within a Canadian and global perspective. Davis also serves customers in search of a brief conceptual overview to support their own lecture notes, additional readings, and/or case material. **Business Education Index**, 1972 **Congressus Numerantium**, 1970
