To Get a Better School System Gene B. Preuss,2009-07-07 In 1949 as postwar Texas was steadily becoming more urban and calls for education reform were gathering strength throughout the state and nation State Representative Claud Gilmer and State Senator A M Aikin Jr sponsored a bill designed to increase salaries for Texas schoolteachers Also tied to the bill however were provisions related to sweeping changes in school funding and access to education for minorities In *To Get a Better School System* Gene B Preuss examines not only the public policy wrangling and historical context leading up to and surrounding the Gilmer Aikin legislation but also places the discussion in the milieu of the national movement for school reform

America Pathways to the Present ,1995 **Keeping the Republic: 4th Edition Full** Christine Barbour,Gerald C. Wright,2008-12-23 *Restating Orientalism* Wael B. Hallaq,2018-07-03 Since Edward Said s foundational work *Orientalism* has been singled out for critique as the quintessential example of Western intellectuals collaboration with oppression Controversies over the imbrications of knowledge and power and the complicity of *Orientalism* in the larger project of colonialism have been waged among generations of scholars But has *Orientalism* come to stand in for all of the sins of European modernity at the cost of neglecting the complicity of the rest of the academic disciplines In this landmark theoretical investigation Wael B Hallaq reevaluates and deepens the critique of *Orientalism* in order to deploy it for rethinking the foundations of the modern project Refusing to isolate or scapegoat *Orientalism* *Restating Orientalism* extends the critique to other fields from law philosophy and scientific inquiry to core ideas of academic thought such as sovereignty and the self Hallaq traces their involvement in colonialism mass annihilation and systematic destruction of the natural world interrogating and historicizing the set of causes that permitted modernity to wed knowledge to power *Restating Orientalism* offers a bold rethinking of the theory of the author the concept of sovereignty and the place of the secular Western self in the modern project reopening the problem of power and knowledge to an ethical critique and ultimately theorizing an exit from modernity s predicaments A remarkably ambitious attempt to overturn the foundations of a wide range of academic disciplines while also drawing on the best they have to offer *Restating Orientalism* exposes the depth of academia s lethal complicity in modern forms of capitalism colonialism and hegemonic power

[Astronomical Pulses to History's Phases](#) Michael A. Susko,2025-09-26 Bringing together seven volumes of research Michael A Susko presents a grand synthesis of astronomical biological and cultural evolution Using a logarithmic model he shows how the universe has unfolded in accelerating pulses from galaxies and planets to the rise of life and symbolic humanity This rhythm of time is then

extended through the Neolithic tells and into recorded history where generational phases reveal cultures growing and transforming in their own natural cycles Three distinct measures of time logarithmic pulses triadic generational units and fifteen year historical generations converge to reveal a patterned fabric of change Across billions of years and into the present moment the author demonstrates how time is not a smooth line but a structured unfolding marked by phases of complexity consciousness and cultural renewal The result is both a sweeping map of our past and a reflection on the nature of time itself its rhythms its surprises and its promise of transformations yet to come *America* Andrew Robert Lee Cayton, Elisabeth Israels Perry, Allan M. Winkler, 1998 Keeping the Republic Christine Barbour, Gerald C.

Wright, 2016-11-19 This refreshed and dynamic Eighth Edition of Keeping the Republic revitalizes the twin themes of power and citizenship by adding to the imperative for students to navigate competing political narratives about who should get what and how they should get it The exploding possibilities of the digital age make this task all the more urgent and complex Christine Barbour and Gerald Wright the authors of this bestseller continue to meet students where they are in order to give them a sophisticated understanding of American politics and teach them the skills to think critically about it The entire book has been refocused to look not just at power and citizenship but at the role that control of information and its savvy consumption play in keeping the republic The United States Catalog, 1925 *Journal of Health, Physical Education, Recreation*, 1952
