Value Pack Nigel Slack, Gerry Johnson, 2005-03-10 *Value Pack* Gerry Johnson, 2005-06-09 *Communication strategies for product recalls in the healthcare business* Thomas Osche, 2010-03-01 Master's Thesis from the year 2007 in the subject Communications Public Relations Advertising Marketing Social Media grade 1 3 Anglia Ruskin University Ashcroft International Business School language English abstract After a series of cardiac implantable device recalls hit the industry in the year 2005 the question of a favourable corporate communication strategy about inevitable product recalls was raised Knowing that it is impossible to produce 100% failure free products I was personally interested in seeing how such recalls occurred and how successful they were handled by the different companies from a communication perspective This thesis analyses such device recalls since the year 2000 and attempts to identify a favourable communication strategy for the companies involved in such recalls in the future Qualitative analysis was performed on various secondary data sources to find

positive and negative aspects of different communication strategies for the affected companies Four companies could be analysed where three provided significant results which were used for final recommendations Those recommendations are provided to support active corporate communication The basis of the recommended communication strategy is as follows Provide disclosure about probabilities of malfunctions while supportive to the most powerful stakeholders which are the physicians and the regulatory authorities When one company faces a recall it is favourable to take accountability and give advice to physicians about how to respond to their patients because they are facing the problem of having all the information at hand without an adequate guideline which summarises a clinical decision on how to act and how to weight risks of keeping the existing device versus the risks of device change out procedures Keywords communication strategy crisis management corporate communication healthcare business

Exploring Corporate Strategy Gerry Johnson, Kevan Scholes, 1993 The text of *Exploring Corporate Strategy* is supplemented by a selection of case studies from International and European companies underpinning the important concepts and principles of corporate strategy and strategic management The text covers all the underlying concepts analytical methods and practical implications of corporate strategy showing how they can be applied successfully to organizations decisions are important the authors view corporate strategy in two ways as a matter of economic analysis and planning and as a matter of organizational decision making within a social political and cultural process Building on the practice of good strategic management the text should help managers to take decisions about change and implement change with assurance and skill The different approaches to formulating strategy are also discussed processes more integrated treatment of cultural context of strategy and critique of Porter's generic strategies and market driven framework for considering generic strategies
