Resources,2016-04-25 Diverse learners with exceptional needs require a specialized curriculum that will help them to develop socially and intellectually in a way that traditional pedagogical practice is unable to fulfill As educational technologies and theoretical approaches to learning continue to advance so do the opportunities for exceptional children Special and Gifted Education Concepts Methodologies Tools and Applications is an exhaustive compilation of emerging research theoretical concepts and real world examples of the ways in which the education of special needs and exceptional children is evolving Emphasizing pedagogical innovation and new ways of looking at contemporary educational practice this multi volume reference work is ideal for inclusion in academic libraries for use by pre service and in service teachers graduate level students researchers and educational software designers and developers [Promoting Good Progress in Primary Schools](#) Caroline Whiting,Paul Richardson,2024-03-12 What does Good progress in primary schools look like How do new teachers ensure they are planning for it How can they evidence it This text is a focused exploration of and guide to the concept of progress for trainee primary school teachers and their mentors It examines what we mean by good progress in the context of the CCF and other frameworks and accountabilities operating in primary schools today It outlines different understandings of progress explores the relationship with other concepts such as knowledge curriculum and assessment and highlights the links between progress and social justice Offers practical support for trainees on how to plan for identify promote evidence and communicate information about progress **Don't Send Him in Tomorrow** Jarlath O'Brien,2016-08-04 In Don t Send Him in Tomorrow Jarlath O'Brien shines a light on the marginalised disenfranchised and forgotten children of today s schools The percentage of children achieving the government s expected standard in benchmark tests is national news every year The progress that children with learning difficulties and SEN make is never discussed because it is not understood That is a problem The bone crushing infrastructure which professionals have to negotiate is a problem The fact that so many parents have to fight tooth and nail so that the needs of their children are met something the rest of us would consider a basic entitlement is a problem This book describes how the system and can be improved if and when these marginalised children are given higher priority by the powers that be There is a widespread lack of understanding about special schools the work they do and the children they educate the sector is largely invisible Jarlath O'Brien has become increasingly frustrated by this and the varying quality of provision for children with learning difficulties and SEN in mainstream schools The successes of special schools and pupil referral units in Ofsted inspections are just not celebrated or analysed in the same way that mainstream schools are While mainstream schools have their hands tied by fears over progress measures There is a human cost to the accountability culture that reduces schooling to data and judgements this is felt most profoundly by children with SEN and their families Jarlath shares some of the problems he s witnessed with inclusion and exclusion mainstream schools actively encouraging children with SEN to look elsewhere parents reporting their children have been formally or informally excluded from school and socially excluded by the parents of other children

children asked to leave their mainstream schools because of their behaviour usually behaviour that is caused by their needs not being adequately addressed children who are in school but isolated from their peers If a child can't participate in activities or trips with the rest of the class or spends much of the day working one to one with a teaching assistant is this really inclusion The Pupil Premium has been established to ensure that children in receipt of free school meals are not disadvantaged why does something similar not exist for children with SEN Every health and wealth indicator that you could use to measure people with learning difficulties and special educational needs SEN reveals something alarming They die younger They work less They are more likely to live in poverty or end up in prison or face mental health difficulties They are much more likely to be excluded from school They are more likely to be bullied at school This has to end We all have to choose to commit to recognising that society as it is today is a difficult place for young people to thrive When you have autism or Down syndrome or any physical or learning difference it's even harder and the system as it stands isn't helping We need to acknowledge that this is not right that such a state of affairs must change and that we all have a part to play in making that change happen Jarlath offers suggestions for politicians Ofsted local authorities head teachers SENCOs teachers and teaching assistants about what they can do to make a difference For all politicians head teachers SENCOs teachers and parents
