Ben DeKalbe Wood,1927 **Politics and Markets in the Wake of the Asian Crisis** Mark Beeson,Kanishka
Jayasuriya,Hyuk-Rae Kim,Richard Robison,2003-09-02 This book is a challenging volume by distinguished leading scholars of
East Asian political economy it provides a distinct alternative to simplistic accounts of the Asian crisis which generally swing
between an emphasis on convergence imposed by global economic forces and the resurrection of the special patterns of East
Asian economic governance The authors argue that global forces and domestic structures are engendering new forms of
economic and political regulation in East Asia While these signal the death knell of the developmental state this in itself does
not presuppose a convergence towards a standard model of global capitalism The arguments in this book will contribute
significantly to the construction of a new research agenda for comparative political economy at the dawn of a new century
Politics and Markets in the Wake of the Asian Crisis covers a range of East Asian countries including the People s Republic of
China South Korea Indonesia Thailand and Malaysia All the studies are linked together by a common endeavour to explore
the dynamic interaction between global economic forces and domestic structures The book is at the cutting edge of the study
of East Asian political economy and is distinguished by the attention it pays to the regional and international context of the
crisis It also contains theoretically sophisticated analyses of organisations such as APEC and the IMF *Employment-at-will*
