

CHEVROLET TRUCK SHOP MANUAL 1948-51 MODELS

• FOREWORD

This manual is designed to provide the service man with complete information on the construction, operation, maintenance and repair of various units of the 1948-51 model Chevrolet trucks.

An effort has been made to produce a manual that will not only serve as a ready reference book for the experienced service man but also cover step-by-step procedure for the guidance of the less experienced man.

The Section Index on the title page enables the user to quickly locate any desired section. At the beginning of each section is a Table of Contents followed by an index listing the page on which each main subject begins. In those sections that cover more than one major subject, the Table of Contents gives the page number on which the coverage of the subject begins, and the detailed index of that subject appears on this page. This arrangement, we believe, will make it easy for the service man to locate the desired information.

Provision is made to enter references to any supplementary information received by the dealer in the form of *Service News* and *Service Bulletins*.

The Special Service Tools shown in this manual, or their equivalent, are necessary for the efficient servicing of Chevrolet trucks. All tools listed are available through Kent-Moore Organization, Inc., General Motors Building, Detroit 2, Michigan.

This manual should be kept in a handy place for ready reference. If properly used, it will enable the mechanic to better serve the owners of Chevrolet trucks and thereby build or maintain a reputation for reliable service.
