China S 13th Five Year Plan:

China's 13th Five-Year Plan U S -China Economic and Security Review,U.S.-China Economic and Security Review Commission,2016-11-26 Xi Jinping s vision for China s development the 13th Five Year Plan is a blueprint that seeks to create a moderately prosperous society in all respects based on innovation open trade green growth and inclusive growth Understanding the key priorities of the world s top trading nation most populous country largest manufacturer and second largest economy and the opportunities and challenges they create for the United States is critically important for U S policymakers and businesses How will the Chinese government finance its ambitious reform agenda What is the impact of China s high tech industrial policies on U S automotive aerospace and semiconductor industries What are the opportunities and challenges for U S companies to compete fairly in China s expanding consumer and service market The 13th Five Year Plan builds upon the 11th and 12th Five Year Plans to shift China s economy away from large scale infrastructure and export led growth toward an economy driven by domestic consumption and higher value added manufacturing The Chinese government is hoping to unleash economic growth and create a new consumer base and working class through urbanization By 2020 the Chinese government hopes to increase the share of its population with urban hukou from 40 to 45 percent

Perfecting China, Inc. Scott Kennedy,Christopher K. Johnson,2016-06-08 This study examines China s 13th Five Year Plan the most authoritative strategic blueprint for the country s economic policies under Xi Jinping The plan seeks to rebalance the economy toward more advanced technologies greater environmental protection and a stronger social safety net However it does not fundamentally rebalance the relationship between state and market with the government and Chinese Communist Party still left with significant tools to micromanage most aspects of the economy Unless greater emphasis is given to shifting this balance the most likely result will be growth with volatility in which some Chinese companies move up the value added chain but without fundamentally improving the country s overall efficiency and performance

Regional Policy in China

Marek Świstak,2022-12-12 Currently much is said about the directions of development of modern China However we still do not know what will determine the expected superpower position of the Middle Kingdom The book is an attempt to answer questions about China s main development challenges from a regional perspective China aspires to become the country with the largest economy and development potential This intention may turn out to be in vain if such significant disparities and development imbalances in the regional system are still present in China The key to understanding the transformation of contemporary China is to recognize the internal determinants of the functioning of both the state and the economy from a regional perspective A better understanding of the ways of managing regional development disparities may contribute to a more accurate assessment of the dynamics and directions of China s socio economic development
