*Structural Crisis and Institutional Change in Modern Capitalism* Bruno Amable, 2017-03-16 This book analyses the evolution of the French model of capitalism in relation to the instability of socio political compromises In the 2010s France was in a situation of systemic crisis namely the impossibility for political leadership to find a strategy of institutional change or more generally a model of capitalism that could gather sufficient social and political support This book analyses the various attempts at reforming the French model since the 1980s when the left tried briefly to orient the French political economy in a social democratic socialist direction before changing course and opting for a more orthodox macroeconomic and structural policy direction The attempts of governments of the right to implement a radically neo liberal structural policy also failed in the face of a significant social opposition The enduring French systemic crisis is the expression of contradictions between the economic policies implemented by the successive left and right governments and the existence of a dominant social bloc that is a coalition of social groups that would politically support the dominant political strategy Since 1978 both the right and the left have failed to find a solution to the contradictions between the policies they implemented and the expectations of their respective social bases which are themselves inhabited by tensions and contradictions that evolve with the structural reforms that gradually transformed French capitalism
