Motherless Daughters Hope Edelman, 1995 In the tradition of *Passages* and *My Mother My Self* this unique personal and ground breaking New York Times best seller the first of its kind explores the profound pain of mother loss among women and is available here for the first time in paperback When my mother died I knew no woman my age who had experienced mother loss I felt utterly and irrevocably alone In college where new friends knew only as much about me as I was willing to reveal I told few people my mother had died I searched the university library and local bookstores for writings about mother loss In each book I found about mother daughter relationships I quickly flipped ahead to the chapter about a mother's death but discovered they all assumed the reader would be in her forties or fifties when her mother dies I was eighteen excerpt from *Motherless Daughters* Not only for motherless daughters but for all women who want to better understand the mother daughter relationship this beautifully written work inspired an Anna Quindlen column appeared in the New York Times Ingram Barnes and received an extraordinary amount of media attention including a feature on *The Today Show* Hope Edelman lost her mother to breast cancer when she was eighteen Unable to find a book to help her understand and cope with that loss she decided to write her own She posted notices asking motherless women to share their experiences with her and was unprepared for both the number of responses she received and for their emotional intensity Eventually meeting with 92 women and surveying 154 by mail Hope was able to compare how mother loss affects daughters differently depending on their ages their relationships to their mothers their father's attitude and the support or dependency of siblings But more important Hope's book explores what these women share a void in their lives t *Motherless Daughters (20th Anniversary Edition)* Hope Edelman, 2014-04-08 The classic New York Times bestseller that has helped millions of women cope with and heal from the grief of losing their mothers Although a mother's mortality is inevitable no book has discussed the profound lasting and far reaching effects of this loss until *Motherless Daughters* which became an instant classic More than twenty years later it is still the go to book that women of all ages look to for comfort help and understanding when their mother dies Building on interviews with hundreds of mother loss survivors Edelman's personal story of losing her mother and recent research in grief and psychology *Motherless Daughters* reveals the shared experiences and core identity issues of motherless women Why the absence of a nurturing hand shapes a woman's identity throughout her lifespan How present day relationships are defined by past losses How a woman can resolve past conflicts and move toward acceptance and healing Why grief really is not a linear passage but an ongoing cyclical journey How the legacy of mother loss shifts with the passage of time *Letters from Motherless Daughters* Hope Edelman, 2014-04-08 After a mother's death a daughter embarks on a personal journey of grief and healing Hope Edelman shared her journey in *Motherless Daughters* afterward she received letters from motherless women all over the world who felt compelled to share their own stories of mother loss Comforted by the shared experiences that appeared in the book they wanted to hear more from women like them *Letters from Motherless*

Daughters was created to fulfill that request and now in this updated edition Hope compiles letters received over the two decades since the publication of her New York Times bestseller *In their own voices* these daughters ranging in age from thirteen to seventy eight share their journeys of mourning and regeneration Beginning with the initial period of adjustment and acceptance covering the first years after a mother's death and describing lives shaped by loss more than twenty years later these letters reflect the challenges and triumphs motherless girls and women face over time The words of these brave women illustrate the profound pain astounding strength and personal growth inherent in living through the loss of a mother without ever outliving the need for her

Apter shows mothers how to interpret the meanings behind a daughter's angry words and how to emerge from arguments with a new closeness. *The AfterGrief* Hope Edelman, 2020 A validating new approach to the long term grieving process that explains why we feel stuck why that's normal and how shifting our perception of grief can help us grow from the New York Times bestselling author of *Motherless Daughters* This is perhaps one of the most important books about grief ever written It finally dispels the myth that we are all supposed to get over the death of a loved one Claire Bidwell Smith author of *Anxiety The Missing Stage of Grief* Aren't you over it yet Anyone who has experienced a major loss in their past knows this question We've spent years fielding versions of it both explicit and implied from family colleagues acquaintances and friends We recognize the subtle cues the slight eyebrow lift the soft startled Oh That long ago from those who wonder how an event so far in the past can still occupy so much precious mental and emotional real estate Because of the common but false assumption that grief should be time limited too many of us believe we're grieving wrong when sadness suddenly resurges sometimes months or even years after a loss *The AfterGrief* explains that the death of a loved one isn't something most of us get over get past put down or move beyond Grief is not an emotion to pass through on the way to feeling better Instead grief is in constant motion it is tidal easily and often reactivated by memories and sensory events and is re-triggered as we experience life transitions anniversaries and other losses Whether we want it to or not grief gets folded into our developing identities where it informs our thoughts hopes expectations behaviors and fears and we inevitably carry it forward into everything that follows Drawing on her own encounters with the ripple effects of early loss as well as on interviews with dozens of researchers therapists and regular people who've been bereaved New York Times bestselling author Hope Edelman offers profound advice for reassessing loss and adjusting the stories we tell ourselves about its impact on our identities With guidance for reframing a story of loss finding equilibrium within it and even experiencing renewed growth and purpose in its wake she demonstrates that though grief is a lifelong process it doesn't have to be a lifelong struggle

Breast Cancer Julianne S Oktay, J Dianne Garner, 2013-12-16 I will always and forever feel I have a hole in my life where my mother once existed I think when you have to think about the fact you might have to take care of your parents someday and juggle kids at the same time It's a scary proposition We had open communication during and before the breast cancer But then after the breast cancer I was often afraid to bring things up in trying to protect Mom This insightful book tells the stories of women whose mothers had breast cancer It uses their own voices to express the common fears and expectations of daughters in the periods before and during their mothers illnesses involving genetic risks death and dying and changes in their relationships The case studies tables and figures and two appendices will benefit health professionals and counselors while the poignant narratives will help mothers and daughters better understand their experiences with breast cancer I was kind of surprised to be alive and free of cancer at age 42 when at this point my mother was crippled by metastases When I get to be 43 the age at which my mother died or maybe when I get to 44 it's like what do I do I have this life that I didn't

expect to have Breast Cancer Daughters Tell Their Stories presents the results of a qualitative grounded theory study of breast cancer survivors providing in depth information about an aspect of breast cancer that has been previously overlooked The book examines the daughters experiences through four phases the period prior to mother s illness the period during mother s illness and treatment the period following mother s death if mother dies and the long term impact From this study recommendations are compiled for providing or improving services for tomorrow s daughters The radical mastectomy left her scarred and disfigured below her nightgown It was bruised and nasty looking That was kind of scary I think that has terrified me since Sometimes I ll have pains in my left breast and that s what I visualize It s terrifying I m not really obsessed about dying of cancer I m more along the line of If this is going to happen to me and there s a chance it s going to I m gonna survive I m not going to die from it From an empathetic perspective this book reveals how many daughters react to and deal with their mothers diagnoses depending on their age and family situation at the time of their mothers illnesses It shows how daughters can gain a more accurate idea of their level of risk by providing educational materials and developing new strategies for communication It also helps breast cancer survivors see how their illnesses can shape their daughters future outlook offering new inspiration for resolving and preventing family crises
