Communication with All Life (Large Print 16pt) Joan Ranquet,2010-06-21 Although Communication with All Life is about animal communication it isn't just a how to book but a guide that will help you discern how much you're already exchanging feelings words and pictures with your pet Woven throughout the book are many stories

to illustrate and support the theory that animal communication isn't something that you do or need to learn it just is. By tuning in telepathically Joan Ranquet has helped thousands of people and animals deepen their connections with each other, resolve behavioral problems, assist in the process of death and dying, and examine issues surrounding illness and accidents. Many of the situations that are dealt with throughout the book are actually people perception problems rather than stories of an ill-behaved dog, cat, horse, bird, or other pet. Communication with All Life illustrates how to move past the emotional patterns that create unwanted behavior and ultimately demonstrates that animal companions give humans the opportunity to enact leadership and responsibility in their thoughts and feelings to ensure harmony at home. [The Amazing Power of Animals](#) Gordon Smith, 2009-08-01 Gordon Smith is renowned for delivering powerful messages to people from their loved ones on the Other Side. But very often it's not just human friends and family members who come through the animals that have been so close to us in life; also continue to visit us after death. There have been many times when Gordon has given readings to clients about the loss of those very close to them, but these individuals can't hear the message because pain has closed them down. However, when animals turn up, the barriers just dissolve and these people can accept the truth of the information that Gordon is relaying to them about their loved ones. In this extraordinary book, Gordon tells these heart-wrenching stories, presenting some of the amazing encounters that people have had with animals in the spirit world and here on Earth, as well, including Gordon's own experiences with his Springer spaniel, Charlie. [The Amazing Power of Animals](#) is full of astounding personal accounts that are a great testament to the power of animals and their unconditional love for us.

Animals and the Afterlife Kim Sheridan, 2011-04-25 Kim Sheridan grew up with animals as her constant companions. Each time she faced the death of a beloved animal, along with the pain came the same questions to which she could find no answers. Then mysterious things began to happen that she couldn't explain, which led her on an incredible journey to uncover the truth. Along with her own extraordinary experiences, she compiled heartwarming and meaningful true stories of everyday people around the world and discovered compelling evidence that forever erased her own doubts about an afterlife for animals. This book provides enormous comfort and reassurance to anyone who has ever cherished an animal and food for thought for anyone who has ever questioned the place of these beloved creatures in the larger scheme of things, both here on Earth and beyond. **Kaapse bibliotekaris**, 2014 Issues for Nov 1957 include section Accessions Aanwinste Sept 1957
