Leave Love with Me William Lawton,2023-09-19 Desire for beauty is at the heart of human existence Some find this meaning out of their religious or spiritual perspective Some find it at the edge of their traditions And others find it outside any recognizable tradition This book speaks especially to the second and third groups of people Desire releases us to explore difference and to honor alternatives Desire shapes our lives in unique ways It centers our energies for personal and relational change where difference can be debated and variety permitted We might transcend circumstances

that limit us Desire is more than meaningfulness it is captivation of mind and spirit to life s possibility In my discovery desire is an abandonment to beauty

Possible Chris Goodall,2024-03-21 As Chris Goodall explains removing fossil fuels from our energy system is technologically feasible and we should take heart that these steps to fight climate change will also lead to large and immediate gains in our day to day health Tim Harford A carbon neutral future is possible we have the technology to transform the global economy and guard against the worst effects of climate change So how do we get to net zero In Possible entrepreneur and climate tech consultant Chris Goodall tackles sixteen challenges that we must overcome in making a just transition to carbon neutrality He explores the technologies that will solve these challenges from changing how steel cement and fuel are made to locking carbon in healthy soils and from green hydrogen storage to building climate resilient homes With case studies and success stories from entrepreneurs across the globe Goodall illustrates the incredible potential of a Net Zero future as well as the determination we will need to overcome these problems New tech featured includes Sweden s H2 Green Steel California s Fortera cement substitute Hong Kong garment to garment recycling Finnish turbine company Coolbrook Norwegian e fuels and Captura s innovative ocean CO2 capture

The One-Straw Revolution Masanobu Fukuoka,2010-09-08 Call it Zen and the Art of Farming or a Little Green Book Masanobu Fukuoka s manifesto about farming eating and the limits of human knowledge presents a radical challenge to the global systems we rely on for our food At the same time it is a spiritual memoir of a man whose innovative system of cultivating the earth reflects a deep faith in the wholeness and balance of the natural world As Wendell Berry writes in his preface the book is valuable to us because it is at once practical and philosophical It is an inspiring necessary book about agriculture because it is not just about agriculture Trained as a scientist Fukuoka rejected both modern agribusiness and centuries of agricultural practice deciding instead that the best forms of cultivation mirror nature s own laws Over the next three decades he perfected his so called do nothing technique commonsense sustainable practices that all but eliminate the use of pesticides fertilizer tillage and perhaps most significantly wasteful effort Whether you re a guerrilla gardener or a kitchen gardener dedicated to slow food or simply looking to live a healthier life you will find something here you may even be moved to start a revolution of your own

The Natural Way of Farming Masanobu Fukuoka,1985 An approach to farming the natural way the theory and practice of working with nature and living better for it

The Road Back to Nature Masanobu Fukuoka,1987 In this collection of articles lectures and essays Fukuoka records for the first time his impressions and observations during his travels He recounts also how he developed a superhigh yielding variety of rice and his incredulity and despair at the petty international seed politics that prevent the use of this miracle grain where it could do the most good And he goes on to lucidly demonstrate the interdependence of nature God and man
