The Subjugation of Canadian Wildlife Max Foran,2018-04-10 Hardly a day goes by without news of the extinction or endangerment of yet another animal species followed by urgent but largely unheeded calls for action An eloquent denunciation of the failures of Canada s government and society to protect wildlife from human exploitation Max Foran s *The Subjugation of Canadian Wildlife* argues that a root cause of wildlife depletions and habitat loss is the culturally ingrained beliefs that underpin management practices and policies Tracing the evolution of the highly contestable assumptions that define the human wildlife relationship Foran stresses the price wild animals pay for human self interest Using several examples of government oversight at the federal provincial and territorial levels from the Species at Risk Act to the Biodiversity Strategy Protected Areas Network and provincial management plans this volume shows that wildlife policies are as much or more about human needs priorities and profit as they are about preservation Challenging established concepts including ecological integrity adaptive management sport hunting as conservation and the flawed belief that wildlife is a renewable resource the author compels us to recognize animals as sentient individuals and as integral components of complex ecological systems A passionate critique of contemporary wildlife policy *The Subjugation of Canadian Wildlife* calls for belief change as the best hope for an ecologically healthy wildlife rich Canada [Applied Marketing](#) Rochelle Grayson,Daniel Padgett,Andrew Loos,2023-10-23 Tomorrow s professionals need a practical customer centric understanding of marketing s role in business and critical thinking skills to help their organizations succeed *Applied Marketing 2nd Canadian Edition* helps students learn practical modern marketing concepts appropriate for the Principles of Marketing course by applying them to the latest business scenarios of relatable brands This comprehensive yet concise text is co authored by Professors Rochelle Grayson and Daniel Padgett and practitioner Andrew Loos and it blends current academic theory with an agency owner perspective to help students get an insider s look at how top businesses operate With many Canadian specific examples students can relate concepts learned in the classroom to marketing topics and events taking place in their backyard **Electronic Media** Norman J. Shadow Networks Francisco Louçã, Michael Ash, 2018-10-03 The 2007-08 financial crisis surprised many economists and the public. But how did the crisis come about, why was it so deep, and why has the clean up been so slow and painful? Many accounts of the crisis focus on renegade activity in marginal financial sectors. *Shadow Networks* challenges this prevailing view and sets out to demonstrate that far from a dissident branch, the shadow finance that initiated the crisis is tightly networked with and highly profitable for bank-based finance. The collapse was not an accident but baked into the system of finance from the start. *Shadow Networks* traces the complex web of power that caused crisis and gives vivid descriptions of the actors in the quarter century leading up to 2007 to explain how the now decade-long crisis took shape. *Shadow Networks: Financial Disorder and the System that Caused Crisis* is a probing examination of the roles of the powerful elite. It traces the networks and institutions that support a finance-focused, market-centered model of economy and society from their ascendancy to their surprising resilience in the face of manifest failures.
