Wael J. Salam,2026-03-17 This book explores the creative depiction of Palestinian traumas in Palestinian Anglophone novels examining memory as a trope of resistance against erasure and forgetfulness in the works of Isabella Hammad Susan Abulhawa Hala Alyan and Selma Dabbagh Moving beyond North American and European models of trauma and remembrance it extends the analysis of trauma tropes to literature from the Global South In the context of a Palestinian archival history that has been systematically destroyed to obscure the brutal realities of settler colonialism popular memory and testimonial forms including literature emerge as adversarial strategies that counter the politics of memoricide and historical erasure The Oxford History of the Novel in English Cyrus R. K. Patell,Deborah Lindsay Williams,2024-03-05 The Oxford History of the Novel in English is a twelve volume series presenting a comprehensive global and up to date history of English language prose fiction written by a large international team of scholars The series is concerned with novels as a whole not just the literary novel and each volume includes chapters on the processes of production distribution and reception and on popular fiction and the fictional sub genres as well as outlining the work of major novelists movements and tendencies This book offers an account of US fiction during a period demarcated by two traumatic moments the eve of the entry of the United States into the Second World War and the onset of the Covid 19 pandemic The aftermath of the Second World War was arguably the high point of US nationalism but in the years that followed US writers would increasingly explore the possibility that US democracy was a failure both at home and abroad For so many of the writers whose work this

volume explores the idea of nation became suspect as did the idea of national literature as the foundation for US writing Looking at post 1940s writing the literary historian might well chart a movement within literary cultures away from nationalism and toward what we would call cosmopolitanism a perspective that fosters conversations between the occupants of different cultural spaces and that regards difference as an opportunity to be embraced rather than a problem to be solved During this period the novel has had significant competition for the US public s attention from other forms of narrative and media film television comic books videogames and the internet and the various forms of social media that it spawned If however the novel becomes a residual form during this period it is by no means archaic The novel has been reinvigorated over the past eighty years by its encounters with both emergent forms such as film television comic books and digital media and the emergent voices typically associated with multiculturalism in the United States

Recontextualizing Resistance Emily Golson,2018-01-23 Resistance is a concept that rose to the forefront of several areas of study when Max Weber made careful distinctions between authority force violence domination and legitimation It gained strong attention when the well known Palestinian journalist activist fiction writer and critic Ghassan Kanafani 1936 1972 published a study entitled the Literature of Resistance in Occupied Palestine 1948 1966 a work that contributed to postcolonial theories of power race ethnicity and gender and second

generation theories of orientalism feminism and disability Initially identified by philosophers historians and social critics as a focal point for situations in which oppressors brutally destroy the identity or subjectivity of the oppressed resistance has been transformed by fiction writers filmmakers lyricists and speechmakers into a process in which responses and counter responses to some type of injustice create difficult situations with complicated nuances These works now form the foundation for what has come to be recognized as resistance art This book gathers the insight knowledge and wisdom found in different manifestations of this art to further our understanding of the impact of resistance on contemporary life
