A Christian Approach to Herbal Medicine

Nature Power By Anselm Adodo

Philemon Omerenma Amanze

Nature Power By Anselm Adodo :

Nature Power Anselm Adodo,2013-10-04 When Nature Power was first published twelve years ago the practice of herbal medicine in Nigeria and in most parts of Africa was identified with witchcraft sorcery ritualism and all sorts of fetish practices Because herbal medicine was associated with paganism African Christians secretly patronize traditional healers and the educated elite and religious figures did not want to be associated in any way with traditional African medicine Nature Power like a lonely voice in a wilderness was written to correct the misconception that African herbal medicine is synonymous with paganism ritualism and fetishism Since its publication Nature Power has been reprinted more than eight times It has contributed immensely in changing the attitudes of both the government and Christians toward the practice of herbal medicine Nature Power has also helped show that health is more than an absence of disease Health is wholeness of mind soul and body Much of the information in this book is age old secrets which herbalists keep close to their chests I have made them available here so that humanity may profit from them Nature Power Anselm Adodo,2004 **African**

Traditional Medicine Philemon Omerenma Amanze,2011-11-17 AFRICAN TRADITIONAL MEDICINE AMONG SEVENTH DAY ADVENTISTS Revealed that African traditional medicine could be used in the explicable or inexplicable form Examined the veracity of the claim that the practice and use of African traditional medicine amounted to idolatry Identified the patterns and extent of the practice and use of traditional medicine among the Seventh day Adventists in particular and Christians in general Analyzed the social economic and spiritual impacts of the practice and use of traditional medicine on Seventh day Adventists and other Christians Discussed the interplay between African traditional medical practices and Western medical practices in the health care delivery system of the Seventh day Adventists Discovered that Seventh day Adventists use the explicable form of African traditional medicine to meet their health needs because it was affordable available and effective to meet their health needs Demonstrated that using the explicable form of African traditional medicine to meet the health needs of Seventh day Adventists is supported by the Bible and Ellen G White who said among other things that God has caused to grow out of the ground herbs for the use of man and if we understand the nature of these roots and herbs and make a right use of them there would not be a necessity of running to the doctor so frequently and people would be in much better health than they are today Selected Messages bk 2 pp 297 298 Nhakanomics: Harvesting Knowledge and Value for

Re-generation Through Social Innovation Ronnie Lessem,Munyaradzi Mawere,2019-08-02 Nhakanomics Harvesting Knowledge and Value for Re generation Through Social Innovation is a radical departure from the commonly held belief that neo liberal economics from the US and the West is universal and is the only solution to underdevelopment and poverty throughout the world Instead the book teases out and theorises the intellectually rutted terrain of development studies and neo liberal economics from a decolonial Pan Africanist perspective Following a path of social innovation with perspectives drawn from social anthropology economics and business and management studies Nhakanomics is a unique socio economic

approach applicable in the Global South and in Southern Africa in particular The study argues that the process and substance of nhakanomics with its pre emphasis on the relational South provides a robust and holistic approach to social innovation and social transformation grounded in relational networks and meshworks The central idea is a call to re GENE rate society through local Grounding and Origination and tapping into local global Emergent Foundations via a newly global Emancipatory Navigation while ultimately culminating in global local transformative Effects in four recursive cycles of re GENE rating C K umusha Culture Communication and Capital after re Constituting Africa the 5Cs With a novel and radical approach the book is an interrogation of neo liberal economics in the Global South As such this book is remarkably handy to students and practitioners in the fields of economics development studies political science science and technology studies business management sociology transformation studies and development related non Governmental Organisations working with grassroots communities

Evolving Work Ronnie Lessem, Tony Bradley, 2018-08-06 The idea of Self and the authenticity of particular identities have been rapidly dissolving in the acids of post modern globalising capitalism The hegemony of patterns of work wage labor and the operation of labour markets in the American West and European North has ridden rough shod over distinctive ways of enabling communities to flourish in many parts of the Southern and Eastern worlds Global South But this is not inevitable Indeed as this book indicates there are many practical examples across the globe that connect with some of the most significant theoretical challenges to the operation of dehumanising work which reveal that a profound reversal is taking place As such the core theme of this book is to show that a movement is occurring whereby self employment can be transformed into communal work that employs the Self in ways that release the authentic vocations of people individually and collectively The approach taken in these chapters traverses the globe utilising the original integral worlds model that will be familiar to students of the Trans4M Routledge Transformation and Innovation series developed over more than a decade Such a standpoint points the way to the release of particular social and economic cultures in each of what we term the four realities or worldviews of South East North and Western worlds In this book we use the methodology of GENEalogy identifying the realms associated with each world to show how the rhythms that is Grounding Emergence Navigation and Effect of each is leading to greater economic social and spiritual freedom for individuals organisations communities and indeed entire societies

Holistic Living Euckay U. Onyeizugbo, 2011-06-01 Wholeness is a process that encompasses all that we are as humans in interaction The contemporary human is in a great deal of psychological distress As a result people do all sorts of extreme things to ease the tension For instance some become hedonistic with inordinate desires for drugs alcohol tranquilizers etc food and sex whereas some become fanatical in their belief system including religious beliefs with tendency toward externality The extent that the human person succeeds in integrating the physical psychosocial and spiritual domain is the extent that humanity evolves to a higher level of consciousness whereby the individual being at peace with oneself reaches out creatively and assertively to neighbours and to

the larger world that encompasses humans and the natural order in harmony Community Activation for Integral Development Ronnie Lessem,2016-12 Typically development studies have evolved top down with theories born and bred in the west affecting practices in the rest This book looks at these developments by turning them on their head instead starting bottom up with an emphasis on what the author terms Community Activation With a selection of case studies this volume looks at where community activation can be found and explores how it could evolve and be of use in developing societies at large In the process he addresses such topics as how to embed development in a particular society how to generate social and economic solidarity and how to generate wealth from pre industrial and post industrial networks *Pharmasearch* ,2006 **The Indian Journal of Agricultural Sciences** ,2016 **The Story of Ewu Monastery** ,2004 **God** ,2005 *Proceedings of the ...
