# ABOUT CHFI v9

CHFI v9 covers detailed methodological approach to computer forensic and evidence analysis. It provides the necessary skillset for identification of intruder's footprints and gathering necessary evidence for its prosecution. All major tools and theories used by cyber forensic industry are covered in the curriculum. The certification can fortify the applied knowledge level of law enforcement personnel, system administrators, security officers, defense and military personnel, legal professionals, bankers, computer and network security professionals, and anyone who is concerned about the integrity of the network and digital investigations.

CHFI provides necessary skills to perform effective digital forensic investigation

It is a comprehensive course covering major forensic investigation scenarios that enables students to acquire necessary hands-on experience on various forensic investigation techniques and standard forensic tools necessary to successfully carryout computer forensic investigation leading to prosecution of perpetrators

CHFI presents a methodological approach to computer forensic including searching and seizing, chain-of-custody, acquisition, preservation, analysis and reporting of digital evidence
