Computational Intelligence Methods for Green Technology and Sustainable Development Yo-Ping Huang, Wen-June Wang, Hieu-Giang Le, An-Quoc Hoang, 2024-12-23 This book is presented in two volumes featuring peer reviewed research papers from the 7th International Conference on Green Technology and Sustainable Development GTSD held in Ho Chi Minh City Vietnam from July 25 to 26 2024 It highlights original research by experts from both academia and industry centered on the theme of Green Technology and Sustainable Development in the Industrial Revolution 4.0 The book underscores the critical importance of sustainability in education technology and economic development while also showcasing the vital role of technological innovation in creating a greener future The papers documented in this book cover a broad range of topics including renewable energy systems smart grids artificial intelligence robotics and intelligent systems and computational intelligence all with a focus on sustainable development climate change mitigation and environmental policy These studies showcase cutting edge technologies and innovative ideas related to green technology offering actionable insights for advancing sustainable development across various sectors The authors present research based on both experimental and numerical methods offering solutions to current problems and optimizing existing methods The insights and findings provided are valuable for industry experts research institutions universities and anyone interested in advancing global sustainable development

Response Surface Methods - Theory, Applications and Optimization Techniques Valter Silva, João Sousa Cardoso, 2024-07-10 With Response Surface Methods Theory Applications and Optimization Techniques one can unlock the full potential of experimental designs This comprehensive guide delves into the complexity of Response Surface Methodology RSM offering both foundational theories and cutting edge applications This book provides novices and experienced practitioners with the tools and knowledge required to optimize processes enhance quality and drive innovation Through a mix of theoretical insights and practical case studies one addresses how RSM can be applied across a diverse set of fields including engineering chemistry biology health care and more Inside readers will find fundamental concepts for understanding the core principles of RSM experimental designs applications optimization techniques advanced topics and an extensive bibliography This book is an essential resource for researchers engineers and scientists aiming to leverage RSM for superior outcomes With broad contributions from leading experts in the field Response Surface Methods Theory Applications and Optimization Techniques stands as a definitive guide for mastering the art and science of experimental optimization Optimize your work streamline your processes and achieve outstanding results with this essential volume

Quality Control Applications in the Pharmaceutical and Medical Device Manufacturing Industry Carrillo-Cedillo, Eugenia Gabriela, Arredondo-Soto, Karina Cecilia, Palomino-Vizcaino, Kenia, Magaña-Badilla, Héctor Alfonso, 2022-03-18 Quality control in pharmaceutical products and medical devices is vital for users as failing to comply with national and international regulations can lead to accidents that could easily be avoided For this reason manufacturing a quality medical product will

support patient safety Microbiologists working in both the pharmaceutical and medical device industries face considerable challenges in keeping abreast of the myriad microbiological references available to them and the continuously evolving regulatory requirements Quality Control Applications in the Pharmaceutical and Medical Device Manufacturing Industry presents the importance of quality control in pharmaceutical products and medical devices which must have very high quality standards to not cause problems to the health of patients It reinforces and updates the knowledge of analytical instrumental and biological methods to demonstrate the correct quality control and good manufacturing practice for pharmaceutical products and medical devices Covering topics such as pharmaceutical nano systems machine learning and software validation this book is an essential resource for managers engineers supervisors pharmacists chemists academicians and researchers

Proceedings of Asia International Conference on Tribology 2018 Mohd Fadzli Bin Abdollah,2018-09-17 This ebook is a compilation of 234 papers presented at the 6th Asia International Conference on Tribology ASIATRIB2018 Kuching Sarawak Malaysia from 17 to 20 September 2018

Emerging Freshwater Pollutants Tatenda Dalu,Nikita Tavengwa,2022-01-29 Emerging Freshwater Pollutants Analysis Fate and Regulations comprises of 20 chapters all written by leading experts This book is written in the most practical terms and is easy to understand with numerous helpful examples and case studies and can be used as a practical guide and important educational tool on issues concerning freshwater emerging pollutants The organisation of the book exposes the reader in logical succession to the full range of complex scientific and management aspects of emerging freshwater pollutants in the developing world The book recognises that water chemistry emerging freshwater pollutants and management are inter dependent disciplines The book covers i the different monitoring techniques current analytical approaches and instrumental analyses ii fate and occurrence of emerging pollutants in aquatic systems and iii management policies and legislations on emerging pollutants Thus subsequent chapters elucidate chemicals with pollution potential multi detection approaches to analysis of organic pollutants in water microplastics effects and photochemical transformation of emerging pollutants in freshwater systems Whereas other chapters address oxidation of organic compounds in aquatic systems biomonitoring systems for detection of toxic levels of water pollutants and health aspects of water recycling practices This book melds several different perspectives on the subject of freshwater emerging pollutants and shows the interrelationships between the various professions that deal with water quality issues Further within the presentation of each separate chapter is discussion of how the various scientific and management aspects of the subject interrelate Includes case studies and practical examples in each chapter Presents a much needed interdisciplinary approach representing the overlap between water chemistry and emerging freshwater pollutants Provides a thorough introduction to emerging tropical and freshwater pollutants that typically occur in these systems

Micro- and Nanotechnologies-Based Product Development Neelesh Kumar Mehra,Arvind Gulbake,2021-09-06 This book provides comprehensive information of the nanotechnology based pharmaceutical product development including a

diverse range of arenas such as liposomes nanoparticles fullerenes hydrogels thermally responsive externally activated theranostics TREAT hydrogels microspheres micro and nanoemulsions and carbon nanomaterials It covers the micro and nanotechnological aspects for pharmaceutical product development with the product development point of view and also covers the industrial aspects novel technologies stability studies validation safety and toxicity profiles regulatory perspectives scale up technologies and fundamental concept in the development of products Salient Features Covers micro and nanotechnology approaches with current trends with safety and efficacy in product development Presents an overview of the recent progress of stability testing reverse engineering validation and regulatory perspectives as per regulatory requirements Provides a comprehensive overview of the latest research related to micro and nanotechnologies including designing optimisation validation and scale up of micro and nanotechnologies Is edited by two well known researchers by contribution of vivid chapters from renowned scientists across the globe in the field of pharmaceutical sciences Dr Neelesh Kumar Mehra is working as an Assistant Professor of Pharmaceutics Biopharmaceutics at the Department of Pharmaceutics National Institute of Pharmaceutical Education Research NIPER Hyderabad India He received TEAM AWARD for successful commercialisation of an ophthalmic suspension product He has authored more than 60 peer reviewed publications in highly reputed international journals and more than 10 book chapter contributions He has filed patents on manufacturing process and composition to improved therapeutic efficacy for topical delivery He guided PhD and MS students for their dissertations research projects He has received numerous outstanding awards including Young Scientist Award and Team Award for his research output He recently published one edited book Dendrimers in Nanomedicine Concept Theory and Regulatory Perspectives in CRC Press Currently he is editing books on nano drug delivery based products with Elsevier Pvt Ltd He has rich research and teaching experience in the formulation and development of complex innovative ophthalmic and injectable biopharmaceutical products including micro and nanotechnologies for regulated market Dr Arvind Gulbake is working as an Assistant Professor at the Faculty of Pharmacy School of Pharmaceutical Population Health Informatics at DIT University Dehradun India He has authored more than 40 peer reviewed publications in highly reputed international journals four book chapters and a patent contribution He has received outstanding awards including Young Scientist Award and BRG Travel Award for his research He is an assistant editor for IJAP He guided PhD and MS students for their dissertations research projects He has successfully completed extramural project funded by SERB New Delhi Government of India He has more than 12 years of research and teaching experience in the formulation and development of nanopharmaceuticals
