**State Crime, Women and Gender** Victoria E. Collins, 2015-10-05 The United Nations has called violence against women the most pervasive yet least recognized human rights abuse in the world and there is a long established history of the systematic victimization of women by the state during times of peace and conflict This book contributes to the established literature on women gender and crime and the growing research on state crime and extends the discussion of violence against women to include the role and extent of crime and violence perpetrated by the state State Crime Women and Gender examines state perpetrated violence against women in all its various forms Drawing on case studies from around the world patterns of state perpetrated violence are examined as it relates to women s victimization their role as perpetrators resisters of state violence as well as their engagement as professionals in the international criminal justice system From the direct involvement of Condoleezza Rice in the United States led war on terror to the women of Egypt s Arab Spring Uprising to Afghani poetry as a means to resist state sanctioned patriarchal control case examples are used to highlight the pervasive and enduring problem of state perpetrated violence against women The exploration of topics that have not previously been addressed in the criminological literature such as women as perpetrators of state violence and their role as willing consumers who reinforce and replicate the existing state sanctioned patriarchal status quo makes State Crime Women and Gender a must read for students and scholars engaged in the study of state crime victimology and feminist criminology

**Minority Rights, Feminism and International Law** Silvia Gagliardi, 2020-05-26 Investigating minority and indigenous women s rights in Muslim majority states this book critically examines the human rights regime within international law Based on extensive and diverse ethnographic research on Amazigh women in Morocco the book unpacks and challenges generally accepted notions of rights and equality Significantly and controversially the book challenges the supposedly emancipatory power vested in the human rights project arguing that rights based discourses are sites of contestation for different groups that use them to assert their agency in society More specifically it shows how the very conditions that make

minority and indigenous women instrumental to the preservation of their culture may condemn them to a position of subalternity In response and engaging the notion and meaning of Islamic feminism the book proposes that feminism should be interpreted and contextualised locally in order to be effective and inclusive and so in order for the human rights project to fully realise its potential to empower the marginalised and make space for their voices to be heard Providing a detailed empirically based analysis of rights in action this book will be of relevance to scholars students and practitioners in human rights policy and practice in international law minorities and indigenous peoples rights gender studies and Middle Eastern and North African Studies

America's War against Global Jihad William R. Nester, 2018-03-06 A specter haunts America the specter of Global Jihad Islamic Holy War This specter was never more horrific than on September 11 2001 when nineteen fanatics hijacked four jetliners and used them as guided missiles to destroy the twin World Trade Towers damage the Pentagon murder nearly 3 000 people and cause as much as several hundred billion dollars worth of direct and indirect damage to New York City and the national economy But Jihadists have periodically attacked Americans ever since November 1979 when mobs shouting death to America overran the American embassy in Tehran and held 52 officials hostage for 444 days President George W Bush responded to the September 11 atrocities by declaring a global war on terror Now in its second decade that war has cost the United States thousands of lives and trillions of dollars Americans are haunted by horrific televised images from across a swath of the Muslim world of bomb blasted cities hundreds of slaughtered bodies thousands of refugees huddled in squalid camps and American journalists in orange jump suits kneeling in the desert before the black robed and masked men who will behead them Americans increasingly question whether the global war on terror has been worth those costs for their own nation and the lands where it is fought This book analyzes America s crusade against Jihadism The key related questions it addresses are these Looking back what were the successes and failures of Washington s counter Jihadist strategy before and after September 11 Looking ahead should Americans stay the course or cut their losses in Iraq Afghanistan and elsewhere Was the catastrophic September 11 attack a one time event or could its equivalent or worse in death and destruction happen again Renowned Harvard professor Samuel Huntington asserted that The underlying problem for the West is not Islamic fundamentalism it is Islam a different civilization whose people are convinced of the superiority of their culture and are obsessed with the inferiority of their power Is that true Just what of Muhammad s words and deeds if any justifies the barbarism of al Qaeda Islamic State and other Jihadists Finally just how corporeal is that specter of global Jihad to the United States A startling surprise awaits the reader in the final chapter as acclaimed expert William Nester weighs the specter of global Jihad against an array of other national security threats
