

Filter Separators API/IP 1581 5th Edition

At a recent industry meeting it was agreed that there is a need for some guidance related to the implementation of the latest edition of API/IP 1581.

This Bulletin is valid with immediate effect but the following key dates should be noted:

- a) New filter separator vessel purchases shall be specified for 5th edition compliance with immediate effect (see item (1) on page 2 for guidance).
- b) Installed 3rd edition coalescer elements can continue in service until replacement is required, due to maximum differential pressure or 3 years, but subject to a final change-out date of **June 30, 2008**.
- c) Purchased stocks of 3rd edition coalescer elements can be used for replacement purposes until **June 30, 2006**, but subject to a final change-out date of **June 30, 2008**.

At Joint Venture airport locations, any variation of the above dates requires the approval of the international head offices of the participant companies.

Background

The need to update the 3rd edition of API/IP Specification 1581 was identified in the mid 1990s and resulted in the preparation of the 4th edition which was published in January 2000 with an effective date of January 2002.

Problems with the specification for the test fuel and particularly for one of the additives required for the qualification procedure led to the effective date for the 4th edition being extended to July 31 2003 with 3rd edition remaining the "current edition" until that date.

At an API/IP meeting in October 2001 it was agreed to develop a 5th edition to replace both 3rd and 4th editions with an effective date of July 2003.

API 1581 5th edition qualification procedures

API/IP Specification 1581 5th edition was published in July 2002. The 5th edition refers to recognising the previous edition for one year after publication (ie. until July 2003) but, because of the improved filtration performance, recommends that 5th edition elements be qualified and offered as soon as practical.

The qualification of 5th edition elements is taking longer than expected. However, some elements manufactured to meet the requirements of 5th edition with witness testing by industry approved inspectors are now available from the manufacturers and it is expected that a full range of the commonly used element types will be available later this year.
