## Chapter 19 The Cold War Guided Reading Strategies:

**Planning Armageddon** Len Scott, Dr Stephen Robert Twigge, Stephen Twigge, 2000-03-09 Planning Armageddon provides the first detailed account of Britain's Command Control Intelligence and Communications infrastructure. A central theme of the book is the British American atomic relationship and its implications for NATO strategy. Based on the recollections of officials and military officers in both Britain and the United States and **Choice**, 1992 Apocalypse, Revolution and Terrorism Jeffrey Kaplan, 2018-09-21 This book focuses on religiously driven oppositional violence through the ages. Beginning with the 1st century Sicari it examines the commonalities that link apocalypticism, revolution, and terrorism occurring in Judaism, Christianity, and Islam, past and present. It is divided into two sections: This was Then and This is Now, which together examine the cultural and religious history of oppositional violence from the time of Jesus to the aftermath of the 2016 American election. The historical focus centers on how the movements' leaders and revolutionaries from earlier times are interpreted today through the lenses of historical memory and popular culture. The radical right is the primary but not exclusive focus of the second part of the book. At the same time, the work is intensely personal in that it incorporates the author's experiences in the worlds of communist Eastern Europe, the Iranian Revolution, and in the uprisings and wars in the Middle East and East Africa. This book will be of much interest to students of religious and political violence, religious studies, history, and security studies. **Resources in Education**, 1996 **Book Review Index - 2009 Cumulation** Dana Ferguson, 2009-08 Book Review Index provides quick access to reviews of books, periodicals, books on tape, and electronic media representing a wide range of popular, academic, and professional interests.
