Breuning, 2007-11-15 This book's introduction to foreign policy analysis focuses on decision makers and decision making. Each chapter is organised around puzzles and questions to which undergraduates can relate. The book emphasizes the importance of individuals in foreign policy decision making while also placing decision makers within their context. *Routledge Handbook of Foreign Policy Analysis Methods* Patrick A Mello, Falk Ostermann, 2022-12-26 The disintegration and questioning of global governance structures and a re-orientation toward national politics combined with the spread of technological innovations such as big data, social media and phenomena like fake news, populism or questions of global health policies make it necessary for the introduction of new methods of inquiry and the adaptation of established methods in Foreign Policy Analysis (FPA). This accessible handbook offers concise chapters from expert international contributors covering a diverse range of new and established FPA methods. Embracing methodological pluralism and a belief in the value of an open discussion about methods, assumptions and diverging positions, it provides new state-of-the-art research approaches as well as introductions to a range of established methods. Each chapter follows the same approach: introducing the method and its development, discussing strengths, requirements, limitations and potential pitfalls while illustrating the method's application using examples from empirical research. Embracing methodological pluralism and problem-oriented research that engages with real-world questions, the authors examine quantitative and qualitative traditions, rationalist and interpretivist perspectives as well as different substantive backgrounds. The book will be of interest to a wide range of scholars and students in global politics, foreign policy and methods-related classes across the social sciences. Chapters 4, 25 and 32 of this book are available for free in PDF format as Open Access from the individual product page at www.routledge.com. It has been made available under a Creative Commons Attribution Non-Commercial No Derivatives 4.0 license. Mao Zedong & China's Foreign Policy Amrita Jash, 2025-07-22 This book analyses China's foreign policy from 1949 to 1976 through a cognitive perceptual lens emphasise

Mao Zedong's central role as the primary decision making authority. Moving beyond realist frameworks it highlights how Mao's ideological worldview shaped by his theory of contradictions, revolutionary zeal and use of historical analogies drove China's foreign policy particularly in relation to Vietnam. His subjective interpretation of global affairs reinforced by Marxist Leninist principles and China's historical identity guided key strategic decisions. The study underscores the importance of individual leaders' beliefs, perceptions and psychological traits in shaping foreign policy offering broader implications for understanding international relations through cognitive and psychological approaches.
