NGOs, Knowledge Production and Global Humanist Advocacy Alistair Markland, 2020-03-02
NGOs Knowledge Production and Global Humanist Advocacy is an empirically and theoretically rich account of how international non-governmental organisations produce knowledge of and formulate understandings about the world around them. The author applies critical and sociological perspectives to analyse the social and political limits of knowledge generated in support of global advocacy efforts aimed at enhancing human rights and preventing violent conflicts. It is found that despite their transnational networks and claims to humanist universality the proximity of global advocates to Western power structures and elite social spaces delimits their worldviews and curtails the potential for radical departures from mainstream political thinking. This book will be of interest to scholars and students of international relations, human rights, the sociology of knowledge, peace and conflict studies and critical security studies.

Mass Media and Cultural Identity Anura Goonasekera, Youchi Ito, 1999-06-15
An increase in ethnic violence in Asia in recent years has generated a wealth of publications, conferences and recommendations on the subject. This volume assesses the inter relation between the media and ethnic violence in Asia and is written by local authors. Focusing on newspapers and television the contributors examine the role of communication media in the management of ethnic relations in India, Indonesia, Malaysia, Pakistan, the Philippines, Singapore and Sri Lanka.

Language Planning in the Asia Pacific John A. Lent, 1978
Robert Kaplan, Richard Baldauf, 2013-12-16
This volume covers the language situation in Hong Kong, Timor Leste and Sri Lanka, explaining the linguistic diversity, the historical and political contexts and the current language situation including language in education, planning, the role of the media, the role of religion and the roles of non-indigenous languages. Two of the authors are indigenous to the situations described while the other has undertaken extensive field work and consulting there. The three monographs contained in this volume draw together the literature on each of the polities to present an overview of the research available about each of them while providing new research-based information. The purpose of the

volume is to provide an up to date overview of the language situation in each polity based on a series of key questions in the hope that this might facilitate the development of a richer theory to guide language policy and planning in other polities where similar issues may arise This book was published as special issues of Current Issues in Language Planning
