An Introduction to Christian Spirituality F. Antonisamy, 2000 The Historical Christ Bruce W. Behrman, 2023-02-16
This book uses the recent findings of cognitive and clinical psychology to draw a picture of the historical Jesus The author uses recent research on conversational memory and clinical psychology in order to shine a light on the way Jesus was This book argues that Jesus suffered from manic depressive illness He identified with God He suffered from extreme mood changes and felt great compassion towards people All of these are mental states which may be triggered by manic depression Manic depression is not a dementing illness This author is not saying that Jesus suffered from a backward type of psychosis But manic depression when manifested in talented persons acts as a catalyst to trigger artistic creativity Many great artists and poets have suffered from manic depression Byron Schumann Tennyson van Gogh Fitzgerald and Lowell to name a few It is among great poets and artists such as these that the author places the historical Jesus This book therefore argues that the writers of the Gospels when they record Jesus as asserting his divinity were conveying an accurate picture of him His assertions of divinity were not fabrications of the early church **The Cantab** Shane Leslie, 1926 Truth ,1927 *The Granta* ,1890

Erwin,1988-02-01 **The Johannine Writings** Paul Wilhelm Schmiedel,1908 **Rowing Notes** Steve Fairbairn,1930 *The Bystander* ,1909 *Bulletin* Carnegie Foundation for the Advancement of Teaching,1926 *Textual Criticism and the Synoptic Problem in Historical Jesus Research* Hyeon Woo Shin,2004 The criteria for originality priority and authenticity used in textual criticism the study of the Synoptic Problem and historical Jesus research share one basic similarity they were all designed to distinguish a prior tradition from its later developments All these areas of research investigate the transmission process which involves both preservation and alteration The sets of criteria used in one area are thus analogous to the sets of criteria used in the other two areas This assumption can be confirmed by observing numerous instances of such similarity in these sets of criteria On the basis of this assumption many other instances of similarity may be newly attained by adapting the set of criteria used in one area for use in the other two areas The sets of criteria for these three areas of research can be further generalized into a mother set of criteria which will provide us with a degree of methodological unification in these disciplines
