Accelerating Sme Trade In Asia Pacific:

SMEs and Economic Integration in Southeast Asia Cassey Lee, Dionisius Ardiyanto Narjoko, Sothea Oum, 2019-04-29 Small and medium sized enterprises SMEs account for about 97.99 per cent of total enterprises and 60.80 per cent of total employment in ASEAN countries. The participation of SMEs is thus crucial for achieving greater regional economic integration amongst ASEAN countries. SMEs are however often constrained by many disadvantages that limit their abilities to become importers and exporters. This is well documented in the research literature on trade and firm size. This volume contains selected ASEAN country studies on the participation of SMEs in regional economic integration based on primary microdata. This is supplemented by empirical studies on the role played by East Asian multinational enterprises in the region. The editors and authors of *SMEs and Economic Integration in Southeast Asia* are to be congratulated for this major contribution to the scholarly and policy literature on a subject of much public discussion but limited analytical research. The emphasis on economic integration highlights the importance of these firms in Southeast Asia's growing regional and global engagement. The thirteen chapters by leading authors in the field comprise both insightful country analyses and careful examination of the links between SMEs and foreign investment. Hal Hill, H. W. Arndt, Professor Emeritus of Southeast Asian Economies, Australian National University.

Advancing IT Interoperability and Trade Facilitation in Southeast Asia Craig A. M. Jones, 2026-01-19 This book explores how digital technologies are transforming cross border trade in Southeast Asia. It examines IT interoperability within the ASEAN Single Window, a landmark initiative that connects national customs systems to accelerate clearance, strengthen cybersecurity and enable seamless data exchange. Organized across nine chapters, the book highlights how artificial intelligence, blockchain, cloud computing and smart connected platforms are reshaping trade flows and regulatory cooperation. Drawing on detailed case studies from Singapore, Malaysia and Indonesia, it shows how digital innovation reduces transaction costs, shortens clearance times and empowers small and medium sized enterprises to participate in regional commerce. Combining theory, policy analysis and empirical evidence, this book provides both researchers and practitioners with a clear roadmap for advancing digital trade. It is an essential resource for scholars of international trade, policymakers and business leaders seeking to understand and shape the future of digital transformation in Asia and beyond.

Economic and Social Survey of Asia and the Pacific United Nations Publications, 2016 The Survey 2014 will examine the regions challenges to support its economic growth and to promote inclusive and sustainable development. Part I of the report will focus on the regions outlook as it contends with the ongoing global recovery and assesses the regions policy response to remaining and emerging vulnerabilities. A special theme is domestic resource mobilization in Asia Pacific which will explore the challenges on strengthening tax revenues. Part II of the report discusses strategic approaches to strengthen regional connectivity to achieve shared prosperity.
