Bioethics MR Lewis Vaughn, 2019-07 *Bioethics Principles Issues and Cases* explores the philosophical medical social and legal aspects of key bioethical issues Opening with a thorough introduction to ethics bioethics and moral reasoning it then covers influential moral theories and the criteria for evaluating them Integrating eighty nine readings twelve of them new to this edition numerous classic bioethical cases and abundant pedagogical tools this text addresses the most provocative and controversial topics in bioethics What is especially appreciated by instructors and students is that in the main issues chapters chapters 3 11 Vaughn opens each chapter with a very substantive introduction to the issue before diving into the readings No other text provides the wide array of pedagogical features that help engage students and bring the material to life a variety of boxes that offer interesting facts legal issues etc sections on applying major theories lists of key terms chapter summaries and a variety of cases many of them real cases taken from the news and questions on those cases [Studyguide for Bioethics](#) Cram101 Textbook Reviews, 2013-05 Never HIGHLIGHT a Book Again Includes all testable terms concepts persons places and events Cram101 Just the FACTS101 studyguides gives all of the outlines highlights and quizzes for your textbook with optional online comprehensive practice tests Only Cram101 is Textbook Specific Accompanies 9780872893795 This item is printed on demand **Autonomy and the Situated Self** Rachel Haliburton, 2013-11-26 *Bioethics* tells a heroic story about its origins and purpose The impetus for its contemporary development can be traced to concern about widespread paternalism in medicine mistreatment of research subjects used in medical experimentation and questions about the implication of technological developments in medical practice *Bioethics* then began as a defender of the interests of patients and the rights of research participants and understood itself to play an important role as a critic of powerful interests in medicine and medical practice *Autonomy and the Situated Self* argues that as bioethics has become successful it no longer clearly lives up to these founding ideals and it offers a critique of the way in which contemporary bioethics has been co-opted by the very institutions it once sought with good reason to criticize and transform In the process it has become mainstream moved from occupying the perspective of a critical outsider to enjoying the status of a respected insider whose primary role is to defend existing institutional arrangements and its own privileged position The mainstreaming of bioethics has resulted in its domestication it is at home in the institutions it would once have viewed with skepticism and a central part of practices it would once have challenged Contemporary bioethics is increasingly dominated by a conception of autonomy that detaches the value of choice from the value of the things chosen and the central role occupied by this conception makes it difficult for

the bioethicist to make ethical judgments Consequently despite its very public successes contemporary bioethics is largely failing to offer the ethical guidance it purports to be able to provide In addition to providing a critique this book offers an alternative framework that is designed to allow bioethicists to address the concerns that led to the creation of bioethics in the first place This alternative framework is oriented around a conception of autonomy that works within the ethical guidelines provided by a contemporary form of virtue ethics and which connects the value of autonomous choice to a conception of human flourishing

Love and Politics Jeffery L. Nicholas,2021-06-07 In Love and Politics Jeffery L Nicholas argues that Eros is the final rejection of an alienated life in which humans are prevented from developing their human powers Eros in contrast is

an overflowing of acting into new realities and new beauties a world in which human beings extend their powers and senses Nicholas uniquely interprets Alasdair MacIntyre s Revolutionary Aristotelianism as a response to alienation defined as the divorce of fact from value However this account cannot address alienation in the form of the oppression of women or people of color Importantly it fails to acknowledge the domination of nature that blackens the heart of alienated life Alienation must be seen as a separation of the human from nature Nicholas turns to Aristotle first to uncover the way his philosophy embodies a divorce of human from nature then to reconstruct the essential elements of Aristotle s metaphysics to defend a philosophical anthropology based on Eros Love and Politics Persistent Human Desires as a Foundation for Liberation presents a critical theory that synthesizes MacIntyre s Revolutionary Aristotelianism Frankfurt School Critical Theory and Social Reproduction Theory It will be of great interest to political theorists and philosophers
