Biomass Gasification In India

Kalam Abul Azad, Mohammad Rasul

Biomass Gasification In India:

Development of Biomass Gasification Technology in India Willem Christiaens,2010-09 This work analyses the development of biomass gasification in India where it takes off with presenting brief historical narrative of past experiments and commercial installations The analysis adopts the framework of Strategic Niche Management in its analysis and applies it to draw conclusions on the past and future development of the technology With the high expectations on the technology s applicability after the first lab scale experiments hundreds of small scale gasifiers where deployed throughout rural India with mixed success Previous expectations proved wrong and new applications for the technology where sought The technology demonstrated to be easier to use in the Industrial setting where it competed with diesel fired burners that gradually became expensive to operate due to increasing fossil fuel prices Also other niches where found for the technology to work in successfully such as crematoria The research is partially based on an 8 month field study where over 40 stakeholders have been interviewed and gasifier installations have been visited [Sustainable Biofuels Development in India](#) Anuj K. Chandel,Rajeev K. Sukumaran,2017-03-14 This book will provide assistance to the broad range of readers involved in the crude oil import and production renewable energy production biomass analysis and bioconversion greenhouse gas emissions techno economic analysis and government policies for implementing biofuels in India This book presents important aspects on the large scale production of biofuels following a bio refinery concept and its commercialization and sustainability issues Hence it is a useful resource to policy makers policy analysts techno economic analysts and business managers who deal with commercialization and implementation of bio based energy and other value added products The following features of this book attribute its distinctiveness As a first uniquely focused scientific and technical literature on bioenergy production in the context of India To its coverage of technological updates on biomass collection storage and use biomass processing microbial fermentation catalysis regeneration solar energy and monitoring of renewable energy and recovery process To the technical policy analysis climate change geo political analysis of bioenergy and green transportation fuels at industrial scale [Advanced Biofuels](#) Kalam Abul Azad,Mohammad Rasul,2019-06-09 Advanced Biofuels Applications Technologies and Environmental Sustainability presents recent developments and applications of biofuels in the field of internal combustion engines with a primary focus on the recent approaches of biodiesel applications low emission alternative fuels and environmental sustainability Editors Dr Azad and Dr Rasul along with their team of expert contributors combine a collection of extensive experimental investigations on engine performance and emissions and combustion phenomena using different types of oxygenated fuel with in depth research on fuel applications an analysis of available technologies and resources energy efficiency improvement methods and applications of oxygenated fuel for the sustainable environment Academics researchers engineers and technologists will develop a greater understanding of the relevant concepts and solutions to the global issues related to achieving alternative energy application for future energy security as

well as environmental sustainability in medium and large scale industries Fills a gap in the literature on alternative fuel applications with in depth research and experimental investigations of different approaches technologies and applications Considers the important issue of sustainability using case studies to deepen understanding Includes energy security within various industries including aviation and transport

Green Buildings and Sustainable Engineering Harald Drück, Jyotirmay Mathur, Varghese Panthaloorkaran, V. M. Sreekumar, 2020-02-05 This book comprises the proceedings of the International Conference on Green Buildings and Sustainable Engineering GBSE 2019 which focused on the theme Ecotechnological and Digital Solutions for Smart Cities The papers included address all aspects of green buildings and sustainability practices in civil engineering and focus on ways and means of reducing pollution and degradation of the environment through efficient usage of energy and water The book will prove a valuable reference resource for researchers practitioners and policy makers

Promoting Sustainability Through Water Management and Climate Change Adaptation Anupama Dubey, Subhash Anand, Basavaraj Bagade, 2023-10-30 This book explores the concept and issues of sustainability and its symbiotic relationship with existing water resources the surrounding climate and geospatial development It covers many dimensions of sustainable water resources climatic variability change It also includes case studies on the basis of specific problems and issues providing sustainable solutions for the future of the earth Over the past several decades climate change has significantly impacted a number of components of the hydrological cycle and hydrological systems including changes in precipitation patterns and intensity widespread melting of snow and ice increased atmospheric water vapour increased evaporation and changes in soil moisture and runoff Excess runoff eventually reaches larger bodies of water such as lakes estuaries and the ocean contaminating the water supply and limiting human and environmental access to water An improved understanding of how changing anthropogenic activities could affect water resources and climate in various parts of the world is a necessary step towards sustainability This awareness requires analyses of challenging interactive areas within the geosphere biosphere hydrosphere cryosphere and sociosphere as resultant long term sustainable strategies and measures are greatly needed

Advances in Energy Research, Vol. 1 Suneet Singh, Venkatasailanathan Ramadesigan, 2020-05-07 This book presents selected papers from the 6th International Conference on Advances in Energy Research ICAER 2017 which cover topics ranging from energy optimization generation storage and distribution and emerging technologies to energy management policy and economics The book is interdisciplinary in scope and addresses a host of different areas relevant to energy research making it of interest to scientists policymakers students economists rural activists and social scientists alike
