Sharpening Psychology's Concepts Wolfgang Giegerich, 2025-07-30 A big problem of psychology in the tradition of C G Jung is that many concepts and orientations are being used by its adherents that are not really compatible with a true psychology because they have their home ground in other orientations It is essential for psychology that its views and concepts are ultimately derived from a rigorous notion of psychology and from the concept of its key metaphor soul This book diligently examines a host of diverse psychological stances and concepts using this insight as its compass Beginning with a thorough elucidation of the unique foundational orientation of Jung's psychology as an additional crucial guidepost and then exploring the lasting significance of James Hillman's achievement in the field of psychology it goes on to engage with works from psychologists such as Robert Romanyshyn Mark Saban and Stanton Marlan By reviewing the various theses presented examples being that synchronicity could be a gate to meaning that one's anxiety could be a guide to psychological understanding that there are absolutely unassimilable images the emphasis is always on making the necessary distinctions

and thereby training the mind in truly psychological thinking This book will be of great interest to the Jungian community psychotherapists and psychoanalysts training in Jungian theory and practice and those interested in psychological theological and philosophical issues

The Black Sun Unveiled James Pontolillo,2013-11 In 1990 a new and unusual symbol called the Black Sun suddenly appeared in German neo Nazi circles It was identified with a sunwheel floor inlay said to have been venerated in occult ceremonies during the Second World War at Wewelsburg Castle the secretive personal retreat of Nazi security chief Reichsf hrer SS Heinrich Himmler Over the last twenty years the Black Sun has been transformed into a metaphorical comet blazing in the Northern sky particularly among neo Nazis with esoteric and occult leanings An Internet search of the terms Black Sun Schwarze Sonne German Sol Negro Spanish Soleil Noir French and Sol Niger Latin reveals the extent of its penetration into everyday aspects of far right cultural life The symbol appears on T shirts CD covers flags decorative household knickknacks wristwatches uniform insignia tattoos etc In response to the phenomenal growth of interest in the Black Sun several previous authors have weighed in on the topic of neo Nazi occultism While they have succeeded in producing much needed general reviews each author singularly failed when it came to addressing the mystery of the Black Sun itself What is the origin of the Black Sun mythology When was the Black Sun first identified with the Wewelsburg Castle sunwheel What do current day neo Nazis believe about the Black Sun Why have esoteric beliefs found traction among neo Nazis What does the Black Sun mythology hold for the future of National Socialism This groundbreaking study provides answers to all of these questions
