

COST ACCOUNTING NOTES:

CHAPTER 1.THE MANAGER AND MANAGEMENT ACCOUNTING

Management accounting measures, analyzes, and reports financial and nonfinancial information that helps managers make decisions to fulfill organizational goals. Management accounting need not be GAAP (generally accepted accounting principles) compliant.

- **Managers use management accounting information to:**
 - Develop, communicate and implement strategies
 - Coordinate product design, production, and marketing decisions and evaluate a company's performance

Financial accounting focuses on reporting financial information to external parties such as investors, governmental agencies, banks, and suppliers, **based on GAAP.**

Cost Accounting measures, analyzes and reports financial and nonfinancial information related to the costs of acquiring or using resources in an organization.

Take into account that accounting professionals have the perspective that cost information is part of the information collected in order to make management decisions, which is why there is not a clear cut distinction between the two in this book, and these terms are often used interchangeably.

Key Differences Between Management Accounting and Financial Accounting.

	Management Accounting	Financial Accounting
Purpose of the information	Help management make decisions to fulfil the organization's goals	Communicate a firm's financial position to investors, banks, regulators and other outside parties.
Primary users	Management of the organization	External users such as investors, banks, regulators and suppliers
Focus and emphasis	Future oriented (budget for 2017 prepared in 2016)	Past oriented (reports on 2016 performance, prepared in 2017)
Rules of Measurement and reporting	Internal measures and reports do not have to follow GAAP, but are based on cost-benefit analyses	Financial Statements must be prepared in accordance with GAAP and be certified by external independent auditors.
Time span and type of reports	Varies from hourly information to 15 to 20 years, with financial and non-financial reports on products, departments, territories and strategies	Annual and quarterly financial reports, primarily on the company as a whole.
Behavioral implications	Designed to influence the behavior of managers and other employees	Primarily reports economic events but also influences behavior because managers compensation is often based on reported financial results.

Strategic decisions and the Management Accountant.

Strategy specifies how an organization matches its own capabilities with the opportunities in the marketplace (cost leadership and product differentiation)

Strategic cost management describes cost management that specifically focuses on strategic issues.

Management accounting information helps managers formulate strategy by answering questions such as the following: (not so important just take a look at this)

- Who are our most important customers and what critical capability do we have to be competitive and deliver value to our customers?
- What is the bargaining power of our customers?
- What is the bargaining power of our suppliers?
- What substitute products exist in the marketplace and how do they differ from our product in terms of features, price, cost and quality?
- Will adequate cash be available to fund the strategy, or will additional funds need to be raised?

Gary Cokins, 2002-04-08 Bedingt durch das Internetzeitalter verlagert sich die Marktmacht mehr und mehr Richtung Verbraucher. Dadurch werden Unternehmen gezwungen ihre Preise niedrig zu halten wenn sie weiterhin wettbewerbsfähig bleiben und ihre Gewinne steigern wollen. Die Zauberformel für die Verwirklichung dieses Ziels heißt Activity Based Costing and Management (ABC M) das sich aus Prozesskostenrechnung und Prozesskosten Management zusammensetzt. Es liefert die Daten mit deren Hilfe die beiden kritischen Managementstrategien niedrige Preise und höhere Gewinne erfolgreich umgesetzt werden können. Aber ABC M liefert nicht nur ein genaueres Bild der Unternehmenskosten sondern gleichzeitig wichtige Informationen um bessere Entscheidungen zu treffen höhere Gewinne zu erzielen und ein effektiveres Kostenmanagement zu betreiben. Activity Based Cost Management ist ein praktischer Leitfaden der speziell für Führungskräfte konzipiert wurde und anschaulich erklärt wie ein ABC M Modell funktioniert und wie man es schnell und problemlos in die Praxis umsetzt.
