Sanville,1996-06-01 Wherever contemporary therapists offer treatment whether in social agencies or clinics in outpatient or inpatient services or even in private practice they are likely to find themselves increasingly working with people whose histories are characterized by deprivation and repeated trauma experiences that have left them feeling damaged often short of basic trust in others and lacking confidence in themselves These people have tended to be seen as beyond the pale for psychoanalytically oriented treatment The contributors to this volume would disabuse us of such a prejudiced opinion They proceed to demonstrate the enormous value of psychodynamic perspectives with a varied clientele many of whom in the past might have been deemed untreatable And they do this by sharing with readers the stories of their attempts to work with persons of diverse cultural ethnic and racial groups who come with complaints that point to severe psychopathologies In each of the twenty three stories we are afforded a glimpse of the two actors in the drama as they meet and size up one another negotiate and renegotiate their agreement to collaborate work through and play through the shifting positive and negative transferences and countertransferences toward a working relationship experience both frustrations and triumphs as they persevere in attempts to promote healing and growth These are exciting narratives documenting the ethic that underlies the psychoanalytic vision and the animation that it affords both participants **Web-Based Education in the Human**
