Bankrupting the Enemy Edward S. Miller,2007 Award winning author Edward S Miller contends that the United States forced Japan into international bankruptcy to deter its aggression While researching newly declassified records the retired chief financial executive of a Fortune 500 resources corporation uncovered just how much money mattered The Japanese government had a huge cache of dollars fraudulently hidden in New York that once discovered it scrambled to extract But in

July 1941 President Roosevelt froze the money in an effort to bring Japan to its senses not its knees His intentions were thwarted however by opportunistic bureaucrats who maneuvered to deny Japan the dollars needed to buy oil and other resources for its economic survival Miller s analysis of prewar documents including a massive OSS State Department study clearly demonstrates that the deprivations facing the Japanese people as a result of the freeze buttressed Japan s choice of war at Pearl Harbor Jacket [The Burnout Fix: Overcome Overwhelm, Beat Busy, and Sustain Success in the New World of Work](#) Jacinta M. Crossley,2008 This book applies the work of Noam Chomsky Edward Herman Edward Said and several others on international politics and the supportive role of the media intellectuals and academics to contemporary Christian origins and New Testament scholarship Part One looks at the ways in which New Testament and Christian origins scholarship has historically been influenced by its political and social settings over the past hundred years or so Moving on to the present the following chapter then applies Herman and Chomskys propagandist model of manufacturing consent in the mass media to the recent explosion of biblical scholars writing on the internet in particularly biblio bloggers It is clear that political views in biblio blogging conform strikingly to the emphases that come through in Herman and Chomskys analysis of the mass media and intellectuals particularly with the standard lines on the war on terror and views on the contemporary Middle East The rest of the book takes up modified key areas of the propagandist model in more detail Part Two looks at the Orientalist rhetoric of clashing civilisations and how this relates to the war on terror and the creation of Islam Arabs Middle East etc as the Great Enemy in the media and relevant intellectual thought since the 1970s and to use Derek Gregorys phrase hideously emboldened in the war on terror The next chapter then shows how this context has had a highly noticeable impact on the use

of social sciences in New Testament and Christian origins scholarship in particular the stark generalisations of scholars using cultural social anthropology based on contemporary studies of the Middle East Disturbingly some of this scholarship has many rhetorical links with Anglo American foreign policy interests in the Middle East and beyond making some politically charged statements that cohere closely with recent intellectual defences of actions in Iraq Palestine and beyond Part Three looks at issues of Palestine and Israel in the media alongside Christian secular and relevant intellectual thought since the Six Day War of 1967 focusing in particular on the dramatic shift towards widespread support for Israel This also includes an analysis of the recent and controversial case of Nadia Abu el Hajs tenure at Barnard The following chapter shows how this interest in Israel has had a profound impact on historical Jesus and Christian origins studies particularly the strange emphasis on Jewishness and misplaced allegations of antisemitism since the 1970s Despite the shift in support of Israel this is rarely done for love of Jews Judaism Israel or Israelis because there remains a notable cultural political and religious superiority in Anglo American scholarship While owing much also to an Orientalist tradition this too is strongly echoed in scholarship of Christian origins where for all the emphasis on the Jewishness of Jesus and the first Christians it is extremely common to find Jesus or the first Christians being better than Judaism or overriding key symbols of Judaism as constructed by scholarship done ironically by frequent ignoring of relevant Jewish texts The end results of contemporary scholarship are not dramatically different from the results of the anti Jewish and antisemitic scholarship of much of the twentieth century
