Decision-Making for Supply Chain Integration Hing Kai Chan, Fiona Lettice, Olatunde Amoo Durowoju, 2012-05-01

Effective supply chain integration and the tight coordination it creates is an essential prerequisite for successful supply chain management. Decision Making for Supply Chain Integration is a practical reference on recent research in the area of supply chain integration focusing on distributed decision making problems. Recent applications of various decision making tools for integrating supply chains are covered including chapters focusing on Supplier selection, pricing strategy and inventory decisions in multi level supply chains, RFID enabled distributed decision making, Operational risk issues and time critical decision making for sensitive logistics nodes, Modelling end to end processes to improve supply chain integration and Integrated systems to improve service delivery and optimize resource use. Decision Making for Supply Chain Integration provides an insight into the tools and methodologies of this field with support from real life case studies demonstrating successful application of various decision making techniques. By covering such a range of topics in this way Decision Making for Supply Chain Integration is a useful reference for researchers looking to develop their knowledge or find potential new avenues of research. Handbook of Research on Transdisciplinary Knowledge Generation Wang, Victor X., 2019-04-19

Traditional methods of viewing the world through the scientific method or instrumental knowledge do not adequately serve the needs of theory, research and practice within an increasingly complex world. Through transdisciplinary theory the focus is on a new form of learning and problem solving involving cooperation among different parts of society to meet the complex challenges of society. The Handbook of Research on Transdisciplinary Knowledge Generation is a critical scholarly resource that examines mutual learning across disciplinary lines as a strategy by which to understand the world and apply practical knowledge. Featuring a wide array of topics such as linguistic diversity, medical education and social constructivism, this book is essential for educational professionals, researchers, students, administrators and academicians. *Decision Making in Service Industries* Javier Faulin, Angel A. Juan, Scott E. Grasman, Michael J. Fry, 2012-08-08

In real life scenarios service management involves complex decision making processes usually affected by random or stochastic variables. Under such uncertain conditions the development and use of robust and flexible strategies, algorithms and methods can provide the quantitative information necessary to make better business decisions. Decision M **Modeling Methods for Business**

Information Systems Analysis and Design Erben, Selin, 2018-12-28. The field of information systems analysis and design includes numerous evolving modelling methods and notations.
